Use of Google Drive

Google provides services for the different applications which are needed for the official works. Google drive is a service to store, shares, and access your files and folders from any mobile device, tablet, or computer—and your first 15GB of storage are free. It is a cloud base service. From Gmail service users are allowed to send up to 25 MB size files. This service is not feasible for sending or sharing file size more than 25 MB. To overcome this inconvenience Google drive is the solution. It is a cloud based service which offers service to the users to share drive up to 15 GB without any charges. Users are allowed to share data more than 15GB by paying reasonable charges. Nowadays each official person from different organizations are availing the services provided by Google Drive.

It is highly important to make students aware of this feature of Google drive. So Hands-on session on Google drive has been conducted for M.Sc . (I.T.) FY (Ist Sem) students on 27th Feb 2021. In response, the students had conducted the E-submission of their assignments in the form of PDF file for the Continuous Evaluation for academic year 2020-2021(IST term). The students of FY had uploaded their Assignments for all subjects as well as mentoring form in the pdf or image format to the Google drive.

Following are the steps:

1. Login to your Gmail from personal account.
2. Select Google Drive from the app picker
3. Upload a Document: Select the **up arrow** just to the right of the "Create" menu on the left side of the screen. Then select the "**Files...**" menu item.
4. Select a file to upload. Navigate to the file you wish to upload and link to. Select "**Open**".

Report On "TechnoCase 2021"

A State Level Competition (Code Battle- C/C++ Programming competition)

A state level case study and 'C/C++ Programming competition named "TechnoCase 2021" was held in the Department of Computer Science, I.T. & Animation, Deogiri College, Aurangabad. This competition was arranged by **Audyogik Tantra Shikshan Sanstha's Institute of Industrial & Computer Management & Research (IICMR)** on **6th March 2021.**

94 Students from Department of Computer Sci., I.T. & Animation were participated in the competition and were issued certificates for participation.

The coordinator for the competition was Mr. Amarnath Pohanerkar from the Department of Computer Sci., I.T. & Animation.

It was an enriching experience for the students and they surely benefitted from the competition.

Hands-on

Use of Google Drive

Google provides services for the different applications which are needed for the official works. Google drive is a service to store, shares, and access your files and folders from any mobile device, tablet, or computer—and your first 15GB of storage are free. It is a cloud base service. From Gmail service users are allowed to send up to 25 MB size files. This service is not feasible for sending or sharing file size more than 25 MB. To overcome this inconvenience Google drive is the solution. It is a cloud based service which offers service to the users to share drive up to 15 GB without any charges. Users are allowed to share data more than 15GB by paying reasonable charges. Nowadays each official person from different organizations are availing the services provided by Google Drive.

It is highly important to make students aware of this feature of Google drive. So Hands-on session on Google drive has been conducted for B.Sc . (C.S.) FY (Sem-I) students on 10th March 2021. In response, the students had conducted the E-submission of record book for the academic year 2020-2021(IST term).The students of FY had uploaded their record books in the pdf or image format of all subjects to the Google drive.
Following are the steps:

1. Login to your Gmail from personal account.
2. Select Google Drive from the app picker
3. Upload a Document: Select the **up arrow** just to the right of the "Create" menu on the left side of the screen. Then select the "**Files...**" menu item.
4. Select a file to upload. Navigate to the file you wish to upload and link to. Select "**Open**".

Department of Computer Science, I.T. & Animation

1. Title of the Course: C Programming

2. Background of the course:

A successor to the programming language B. C was originally developed at Bell Labs by Dennis Ritchie between 1972 and 1973 to construct utilities running on Unix. It was applied to re-implementing the kernel of the Unix operating system. During the 1980s, C gradually gained popularity. It has become one of the most widely used programming languages, with C compilers from various vendors available for the majority of existing computer architectures and operating systems. C has been standardized by ANSI since 1989 (ANSI C) and by the International Organization for Standardization (ISO).

C is an imperative procedural language. It was designed to be compiled to provide low-level access to memory and language constructs that map efficiently to machine instructions, all with minimal runtime support. Despite its low-level capabilities, the language was designed to encourage cross-platform programming. A standards-compliant C program written with portability in mind can be compiled for a wide variety of computer platforms and operating systems with few changes to its source code.

3. Brief information about the department:

The department of computer science, I.T. & Animation under the guidance of the head of the department Dr. S.N. Helambe runs under graduate and post graduate courses in B.Sc. I.T., BCA(sci.), B.Sc.(Opt. Comp. Sci.), B.Sc.(Comp. Sci.), M.Sc. (C.S.), M.Sc. (I.T.) as well as B.Voc.(Multimedia & Animation). Department also runs Add-On courses for skill development for the students.

4. Objectives:

The course is designed to provide complete knowledge of C language. Students will be able to develop logics which will help them to create programs, applications in C. Also by learning the basic programming constructs they can easily switch over to any other language infuture.

5. Expected Outcomes:

- Explain the fundamental process of problem solving using computers
- Design algorithmic solutions for simple computing problems
- Write reliable C programs for given algorithms.

DEOGIRI COLLEGE Seal AURANGABAD

Head
Department of Computer Science
Deogiri College Aurangabad.

Principal
Deogiri College,
Aurangabad.

• Design, implement, test and debug programs that use different data types, such as simple variables, strings, arrays, pointers and structures

• Write C programs for simple applications using files

At the end of this course the students will be able to:

- Ability to analyze data
- Ability to think logically and creatively
- Ability to solve scientific problems
- Ability to apply knowledge to practical situations and write program for it .

6. Name of the course coordinator: 1) Mr.S. P. Kathar

2) Mr. Bhushan S. Kulkarni.

Certificate course Evaluation Pattern

Academic Year 2020-2021

Course Name: hands on course on C Programming **Duration :** 60 Hours

Name of Coordinator: Mr. Bhushan S. Kulkarni

Start Date : 23/03/2021 **End Date :** 01/07/2021

Theory Marks : 50

Practical Marks: 0

Total Marks : 50

Note :

1. For 50 marks practical evaluation
   a. one major question 40 marks and viva 10 Marks
2. For theory 50 marks Evaluation
   a. 50 marks for MCQ's
3. For 100 marks evaluation
   a. 40 marks for practical question 10 marks for viva
   b. 50 marks for MCQ's
   c.

8. Array is a _____ data structure. *

2 points

- A. Non-linear
- B. Primary
- C. Linear
- D. Data type

9. A global variable is declared _____. *

2 points

- A.Outside of the function
- B. Inside of the function
- C. With the function
- D. Anywhere in the program

10. Which of the following operations can be performed in file handling? *

2 points

- A. Open the file
- B. Read the file
- C. To write a file
- D. All of the these

(Principal

Certificate course Time table

Academic Year 2020-2021

Course Name: Hands on course on C-Programming **Duration:** 60Hrs.

Name of Coordinator: Mr. Shriram P. Kathar

Start Date: 23/03/2021 End Date: 01/07/2021

Name of the course	Time (Monday to Saturday daily 2 hours)
Hands on course on C-Programming	06:00 PM to 08:00 PM

DEOGIRI COLLEGE Seal AURANGABAD

Signature of HOD

Certificate course Evaluation Pattern

Academic Year 2020-2021

Course Name: hands on course on C Programming **Duration :** 60 Hours

Name of Coordinator: Mr. Bhushan S. Kulkarni
Mr. Shriram P. Kathar.

Start Date : 23/03/2021 **End Date :** 01/07/2021

Theory Marks : 50

Practical Marks: 0

Total Marks : **50**

Note :

1. For 50 marks practical evaluation
   a. one major question 40 marks and viva 10 Marks
2. For theory 50 marks Evaluation
   a. 50 marks for MCQ's
3. For 100 marks evaluation
   a. 40 marks for practical question 10 marks for viva
   b. 50 marks for MCQ's
   c.

C Certificate Course Exam

Note :
1: Write your name properly .
2: Attempt all the questions

The respondent's email (**null**) was recorded on submission of this form.
* Required

1. Email *

2. Name (Last Name First Name Middle Name) *

3. All keywords in C are in _____ * 3 points

Mark only one oval.

- LowerCase letters
- UpperCase letters
- CamelCase letters
- None of the mentioned

4. Operator % in C Language is called.? * 2 points

Mark only one oval.

- Percentage Operator
- Quotient Operator
- Modulus
- Division

5. Choose a C Conditional Operator from the list. * points

Mark only one oval.

- ?:
- :?
- :<
- <:

Head
Department of Computer Science
Deogiri College Aurangabad.

6. The prototype of a function can be used to, * 2 points

Mark only one oval.

- Define a function
- Declare a function
- Erase a function
- None of the above

DEOGIRI COLLEGE ★ AURANGABAD Seal

7. Which library functions help users to dynamically allocate memory? * 2 points

Mark only one oval.

- memalloc()and alloc()
- malloc() and memalloc()
- malloc() and calloc()
- memalloc() and calloc()

Principal
Deogiri College,
Aurangabad.

8. * 2 points

What will be the output of the following C code?

```
#include stdio.h>
#define san 10
main()
{
    #ifdef san
    #define san 20
    #endif
    printf("%d",san);
}
```

Mark only one oval.

- 10
- 20
- Error
- 1020

9. What value strcmp() function returns when two strings are the same? * 2 points

Mark only one oval.

- 0
- 2
- 1
- Error

10. Which of the following header files must necessarily be included to use dynamic memory allocation functions? * 2 points

Mark only one oval.

- stdlib.h
- stdio.h
- memory.h
- dos.h

11. Which of the following keywords is used to define an alternate name for an already existing data type? * 2 points

Mark only one oval.

- default
- volatile
- typedef
- static

DEOGIRI COLLEGE Seal

12. The keyword 'break' cannot be simply used within _____ * 2 points

Mark only one oval.

- do-while
- if-else
- for
- while

Principal
Deogiri College,
Aurangabad.

13. * 2 points

7. What will be the output of the following C code?

```
1.  #include <stdio.h>
2.  void main()
3.  {
4.      int i = 0;
5.      if (--i)
6.      {
7.          printf("H");
8.      }
9.  }
```

Mark only one oval.

- H
- H is printed infinite times
- Compile time error
- Varies

14. Which keyword is used to come out of a loop only for that iteration? * 2 points

Mark only one oval.

- break
- continue
- return
- none of the mentioned

15. What is the need for a File when you can store anything in memory.? * 2 points

Mark only one oval.

- Memory (RAM) is limited in any computer.
- A file is stored on Hard Disk which can store Gigabytes of data.
- File stored on Hard Disk is safe even if PC is switched off. But Memory or RAM contents are cleared when PC is off.
- All the above

16. What is the keyword used to declare a C file pointer.? * 2 points

Mark only one oval.

- file
- FILE
- FILEFP
- filefp

17. What are the types of C Preprocessor Directives.? * 2 points

Mark only one oval.

- Macros
- Conditional Compilation
- File Inclusion
- All the above

18. What is the keyword used to define a C macro.? * 2 points

Mark only one oval.

- def
- definition
- define
- defy

DEOGIRI COLLEGE AURANGABAD Seal

19. What is a String in C Language.? * 2 points

Mark only one oval.

- String is a new Data Type in C
- String is an array of Characters with null character as the last element of array.
- String is an array of Characters with null character as the first element of array
- String is an array of Integers with 0 as the last element of array.

20. What is the Format specifier used to print a String or Character array in C Printf or Scanf function.? * 2 points

Mark only one oval.

- %c
- %C
- %s
- %w

8/9/2021 C Certificate Course Exam

21. * 2 points

What will be the output of this program?

```
int main()
{
int a=10, b=20;
printf("a=%d b=%d",a,b);
a=a+b;
b=a-b;
a=a-b;
printf("a=%d b=%d",a,b);
return 0;
}
```

Mark only one oval.

- a = 20, b = 20
- a = 10, b = 20
- a = 20, b = 10
- a = 10, b = 10

22. The first and second arguments of fopen are? * 2 points

Mark only one oval.

- A character string containing the name of the file & the second argument is the mode.
- A character string containing the name of the user & the second argument is the mode.
- A character string containing file pointer & the second argument is the mode.
- None of the mentioned of the mentioned.

23. If there is any error while opening a file, fopen will return? * 2 points

Mark only one oval.

- Nothing
- EOF
- NULL
- Depends on compiler

24. The ftell() function * 2 points

Mark only one oval.

- takes the file pointer to the end of the file
- takes the file pointer to the beginning of the file
- takes the file pointer to the current position
- gives the current position of the file pointer

25. What is the meant by 'a' in the following operation? fp = fopen("Random.txt", "a"): * 2 points

Mark only one oval.

- Attach
- Append
- Apprehend
- Add

26. Which among the following is the odd one out? * 2 points

Mark only one oval.

- printf
- fprintf
- putchar
- scanf

27. Which function is used to delete the allocated memory space? * 2 points

Mark only one oval.

- Dealloc()
- free()
- Both A and B
- None of the above

Academic Year 2020-2021

Report on

"IBM Open P-TECH demystifying emerging technology for students Activity"

A memorandum of understanding was made between Deogiri College, Aurangabad and MINDMAP learning Hyderabad. The term of the MOU was from 16th October 2020 to 31st March 2021.

MINDMAP provided assistance to students to enroll on IBM Open P-TECH platform and to access various courses on the platform. MINDMAP monitored the progress of the students via the platform and provided Digital IBM Badges to the students who successfully completed the course including the final assessment.

254 students of the Department of Computer Science, IT & Animation, participated in the various courses and were rewarded with digital IBM Badges and certificates. The students who participated benefited with the knowledge of the latest trends and technologies in the field of information technology which is useful for their career.

Enclosed:

1. MOU
2. Brochure of Program
3. List of participated students
4. Certificates of students

Aurangabad.

Looking at the busy online teaching schedules of the students on 15/6/2021, from 19/6/2021 to 24/6/2021, QUIZ of 100 marks was taken from the Google form of Google Class Room. Considering the network problem of Vodafone and Idea Phone, 452 students responded.

A total of 452 students from Science, Commerce and Arts responded to this quiz. Out of these 406 students got more than 50% marks while 46 students got less than 50% marks. Out of the total attendance in the examination, the number of boys was 160 (35.%) and the number of girls was 294 (65.%). The average pass result of this quiz is 89.82% and the pass percentage is 10.17%.

D.O. No. P.11057/17/2018-HRD

Dear Madam / Sir,

02nd June, 2021

The National Education Policy (NEP)-2020 has placed renewed emphasis on 'how to read', 'learn to read', 'read to learn' and underscored the critical role played by Public/School/Digital libraries towards this end. The P.N. Panicker Foundation has been a key contributor in this area.

2. Honouring the father of the 'Library Movement in Kerala', the late Sh. P.N Panicker, the State Government of Kerala has been celebrating 19th June as the 'Day of Reading' and the following week as the 'Reading Week' since 1996. This initiative commenced in collaboration with P.N. Panicker Foundation, paved the way for the launch of Reading Mission 2022. In furtherance of the lofty objectives of this Mission, the Hon'ble Prime Minister inaugurated the 22nd National level Reading Day and Reading Month celebrations at Kochi on 17th June 2017.

3. In view of the pandemic, the celebrations this year will be held online. Further, they will comprise a variety of Covid-awareness related activities including webinars on Covid appropriate behaviour. The target audience is to include School/College students, teachers, faculty members and librarians. Your State/UT may organise similar activities with an enhanced focus on promoting online/offline reading.

4. The Reading Mission stands to benefit greatly from your engaged leadership in this regard. May I request you to direct all District Magistrates(DMs) of your State/UT to virtually chair District Level Organising Committees as in earlier years. The DMs may be advised to guide the Reading Mission towards the envisioned outcomes by 2022 in the larger interest of our children and the nation.

With warm regards

Yours sincerely,

(Dr. Prem Singh)

Zoom Meeting Pass code:- 577350

A Sate level webinar on "**Our Digital Library : Golden Opportunity to User in Lockdown Period**" was conducted by the Dept. of Library, M.S.P. Mandal's Deogiri College, Aurangabad on 15th July, 2021.

This User Orientation workshop was conducted online on Sunday 15/7/2021 for all visually impaired students in Maharashtra on behalf of Library and Knowledge Resource Center at Deogiri College of Marathwada Shikshan Prasarak Mandal.

The convener of this online workshop, Librarian, Dr. Sudesh Dongre spoke on "Our Digital Library: A Golden Opportunity for Users in Lockdown."

Librarian Dr. Sudesh Dongre, Coordinator of the one-day state-level workshop on "Our Digital Library: A Golden Opportunity for Users in Lockdown.", introduced the event with an example of why the workshop was organized.

Principal
Deogiri College,
Aurangabad.

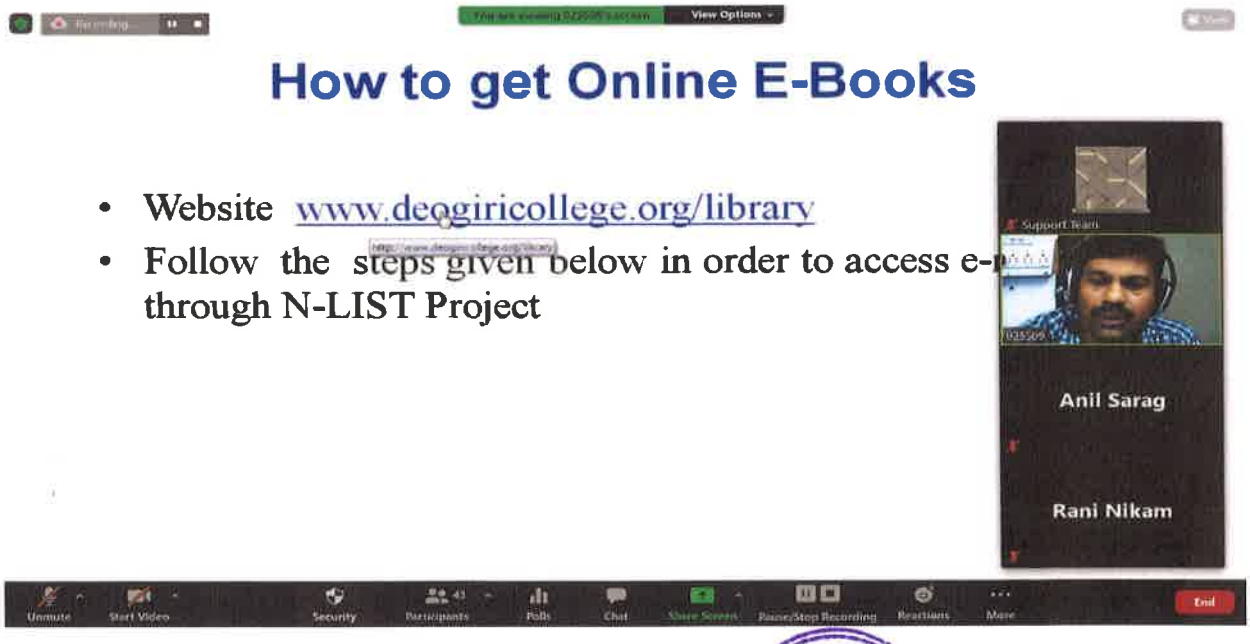
While giving information, the librarian Dr. Sudesh Dongre

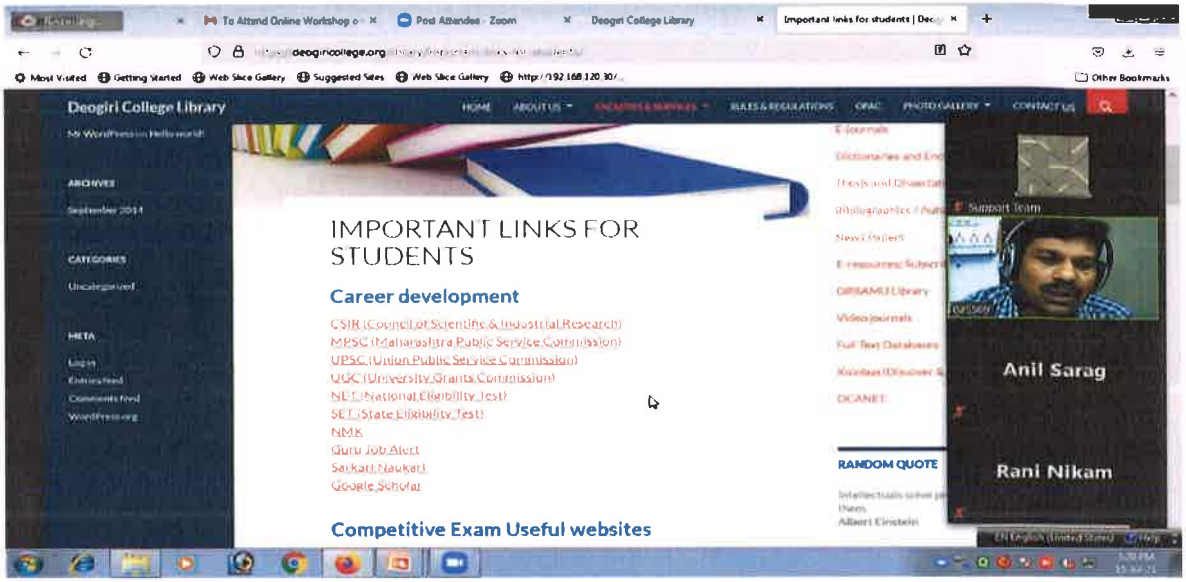
The main objective of the workshop was to find the right consumer for the digital resources in the library, to provide the digital resources that every consumer needs, and to save the time of the consumers.



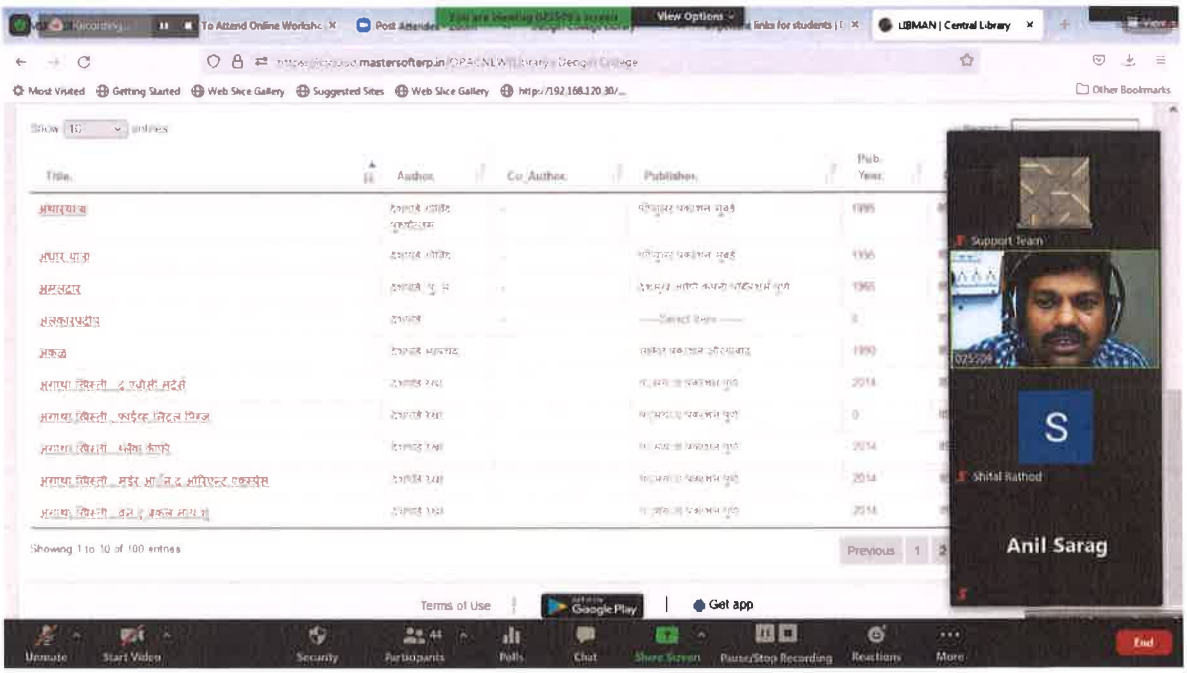
Principal
Deogiri College,
Aurangabad.

DEOGIRI COLLEGE Seal AURANGABAD

During the global epidemic pandemic of COVID-19, detailed guidance was given to the consumers on how to utilize the resources of the library in closed conditions.



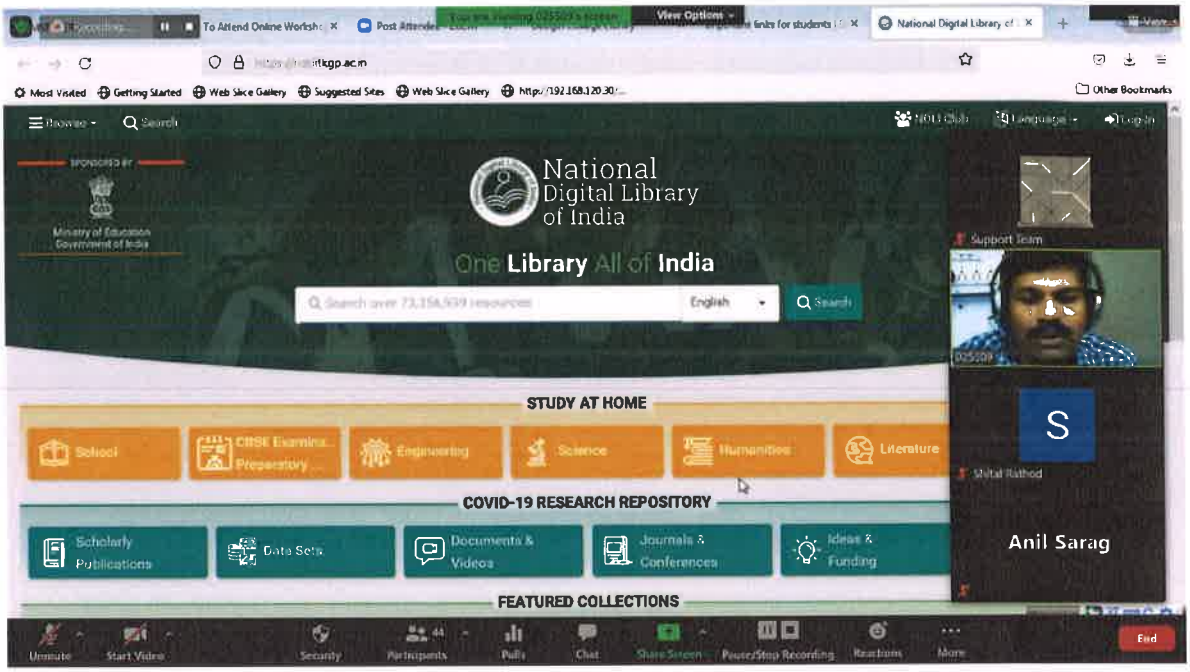
To online access the library, go to the College Library's website www.deogiricollege.org/library and click OPAC on the main menu bar on the Home_Page of the library to find the texts in the library. When will the text come back ..? Detailed guidance was given on how to reserve a complete copy of the text if it is not available.



Principal
Deogiri College,
Aurangabad.

DEOGIRI COLLEGE Seal AURANGABAD

Then the National Digital Library, E-books, E-journals, Dictionaries & Encyclopedia, Thesis Dissertation, Bibliographies / Autobiographies, e-News Papers, N-List Consortia, video journals, full text Database, in the e-resources available on the home page of the library. Course wise textbooks on DCANET as well as facilities and services on the main menu bar. Important links for students on the sub-menu. How to complete the study.



Students from the e-PGpathshala at the bottom of the N-List Consortia's Home Page were given a demonstration of how to view notes in PDF format and, if necessary, in the form of Video Lectures.

Deogiri College,
Aurangabad.

The chief guest of the workshop was inaugurated by Dr. Ashok Tejankar, Incharge Principal of Deogiri College. At this time, the Vice-Principal of the college, Dr. C. S. Patil, Vice-Principal Dr. Dilip Khairnar, Vice-Principal, Dr. Anil Ardad and Online Workshop Coordinator Librarian Dr. Sudesh Dongare were the Present.

Librarian Dr. Sudesh Dongre, Coordinator of the one-day state-level workshop on 'Digital Library: Specially Visually Impaired Students', introduced the event with an example of why the workshop was organized. Along with the visually impaired students entering the college, the blind students from the society and the state as a whole should be fearless, highly educated, should be able to use the reading material available in the library. Similarly, the facilities available in the library for the visually impaired students as well as the visually students were mentioned in detail. The benefit of the library can be availed even without coming to the library. Such as M-OPAC, e-Books, e-News Papers, last year's question papers available on the college's website as well as the annual issue of the college.

While introducing the program. Librarian, Dr. Sudesh Dongare

The library also has NVDA, JWAS, Low Vision Software, Magnifire Glass, Braille Slate software so that study books for blind students can be read without the help of other readers. So with the

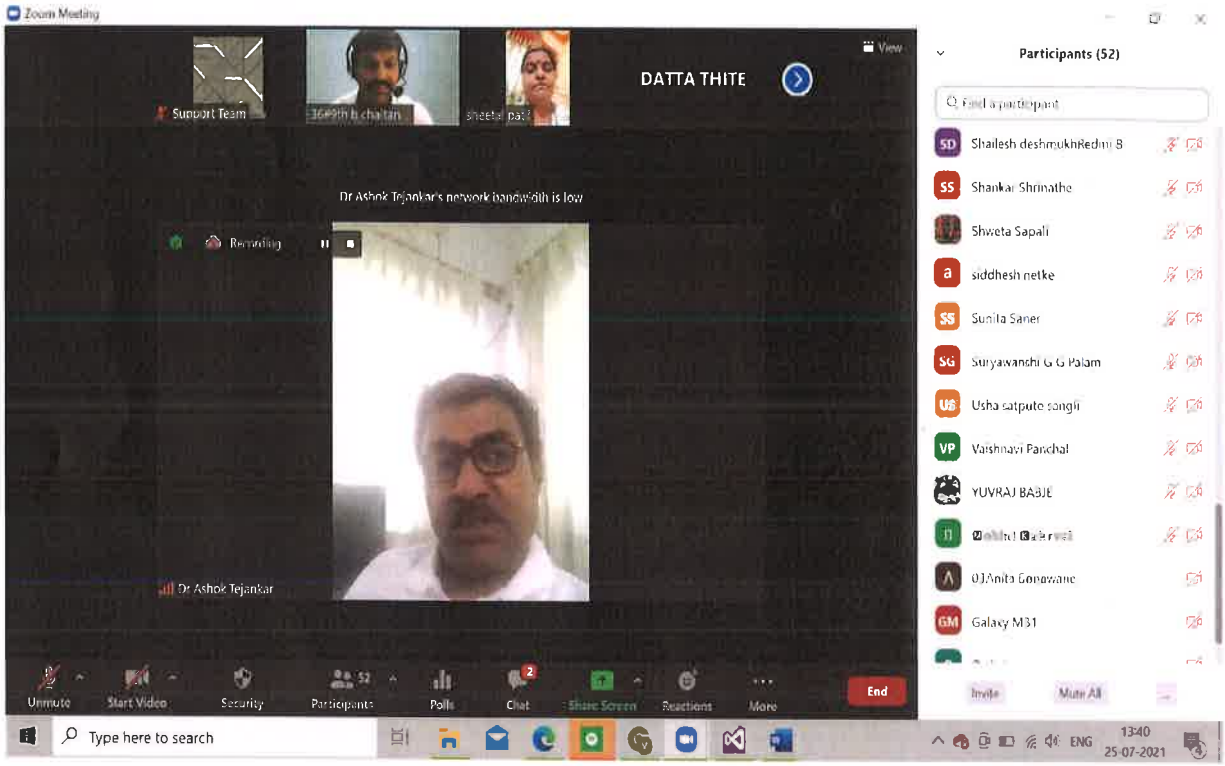
Principal
Deogiri College,
Aurangabad.

help of computer tools available in the library, students can do their own writing, reading and studying without any help. With the help of Snehankit Helpline Mumbai, there are a total number of 3884 books in the MP3 format for visually impaired student. Such as stories, Novels, Banking, Railway Recruitment, PSC, UPSC and other competitive exams as well as B.Ed, D.Ed, TET and Law. He informed the digital library to be taken by all the blind students in the state along with the blind students of the college.



While concluding the presidency of the event. In-charge Principal, Dr. Ashok Tejankar.

Speaking at the concluding ceremony of this online state level workshop, the l In-charge Principal of the college, Dr. Ashok Tejankar said that in addition to the textbooks for visually impaired students, there are also textbooks available in MP3 format for blind student, such as Stories, Novels, Autobiographies, Banking, Railway Recruitment, MPSC, UPSC, and other Competitive Examinations. The library has a separate lab with software called NVDA, JWAS as well as software called Low Vision and OCR. That is why the number of visually impaired students in our college is always higher than other colleges in the state. These students have completed their college education and are working in different places today.

Delivered Lecturer by Mrs. Parimala Bhat, Founder, Snehankit Helpline Mumbai's.

The lecturer of this program is Snehankit Helpline Mumbai Speaking on "Digital Library: Specially for Visually Challenged Student", Mrs. Parimala Bhat, Founder, said, "Why are we lagging behind today when we are moving forward on the strength of information technology? So we can do our study and writing using technology like a normal person as well as through apps like Braille and we can develop like a normal person. By giving such various examples, he enlightened the participating librarians along with the visually impaired students.

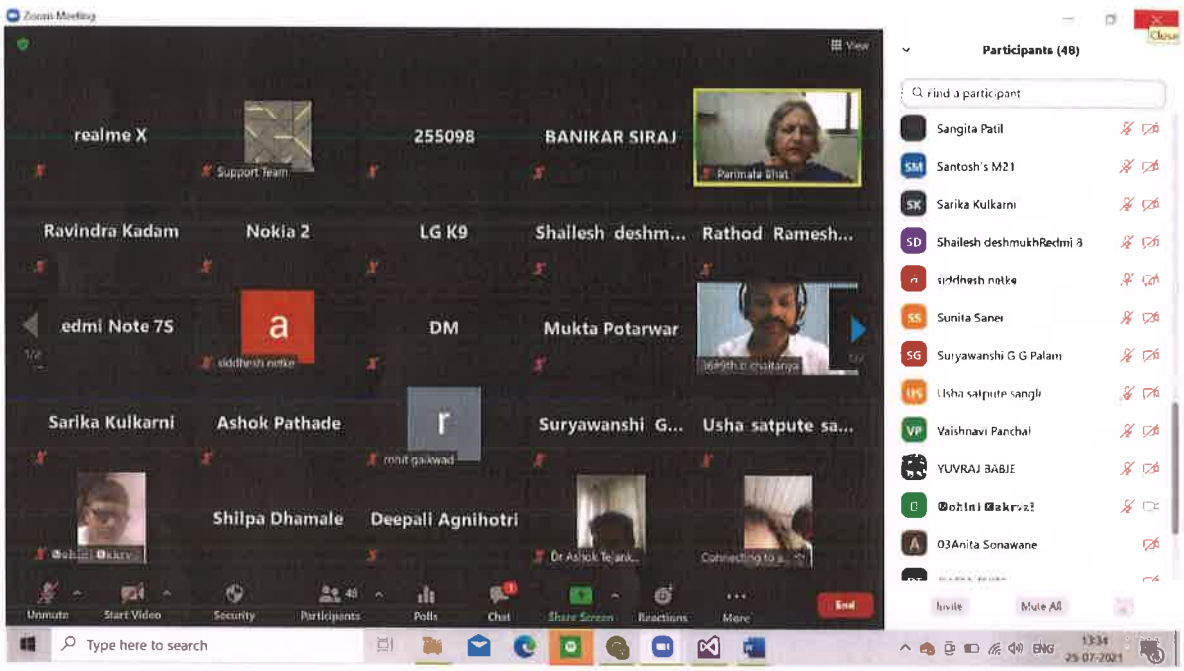
Delivered lecturer by Mrs. Darshana Mudodkar, Counselor, Eye way Helpdesk, Mumbai

Similarly, Mrs. Darshana Mudodkar, Counselor, Eye way Helpdesk, Mumbai, said, "Don't be discouraged, be self-reliant! We need to increase our self-confidence in the beginning so that we can live our lives properly only if we can do our own thing." How can a visually impaired student become self-reliant and self-sufficient by giving innumerable examples to survive and earn money, food, The basic needs of clothing and shelter can be met. The students were also informed about personality development. Opportunities for jobs in various places were mentioned. All of these events were conducted online through Zoom Meet.

News of the event was recorded on ADN Marathi News and Karjat Jamkhed Radio.



The workshop was attended by visually impaired students as well as students from different parts of Maharashtra

Along with visually impaired students in this workshop, 172 visually impaired students from Pune, Nashik, Mumbai, Nagpur, Amravati, Jalgaon, Akola, Kolhapur, various parts of the district, parents as well as some librarians in the library sector, social workers, Taluka and District level Zilla Parishad disability relief projects. Implementing Project Coordinator and Project Officer as well as Subject Resource Person of District Education and Training Institute, Aurangabad as well as Principal of District Education and Training Institute Jalgaon registered online participation. Feedback forms were filled out through Google Forms from all participating students about the information provided in the

M.S.P. Mandala's Deogiri College
Department of Botany
Skill Oriented Course
Training in Soil Testing
2020-2021

Title of the Course: Training in Soil Testing.

Background for the Course:

Department of botany Deogiri college conducts the training programmers for college students through the Training course in Soil Testing.

A majority of students does not possess marketable skills which is an obstacle in getting decent employment and improving their economic condition. A large number of college drop outs do not have access to skill development for improving their employability. Soil Health Management or soil testing of crop fields is one of the most important involvements under certificate course. Certificate course in Soil Testing/ Soil Health Management aims at promoting employability, awareness and establishment of soil testing labs in one of the components which are mainly located at district level. Therefore, village level soil testing projects will be established with the objective of employment generation for rural youth and to improve timelines in analysis of soil samples.

Brief information about the Department:

Department of Botany Besides the undergraduate and post graduate courses, the Department of Botany is the department undertaken many Research Projects completed and few UGC sanctioned projects ongoing. The Department is a recognized Research Center by Dr. Babasaheb Ambedkar Marathwada University, Aurangabad and is actively engaged in research work in Angiosperms, Taxonomy, Floristic, and Mycology. The college has taken initiatives towards social responsibility in reclamation of soil quality by starting Bio fertilizers and its production as self-financed course for the students from agricultural background. With this objectives department started training course for the students

DEOGIRI COLLEGE * Seal * AURANGABAD

Principal
Deogiri College,
Aurangabad.

- To conducts the training programmers for college students.
- Employment generation for rural youth.
- To improve timeliness in analysis of soil samples.
- Collaboration with Government Agriculture Soil testing Department.
- Provide soil testing facilities to farmers at their door step.
- To create awareness about soil health and organic farming in the College Students
- **Brief description of Job roles:**
- Analyses soil samples of the farmer's fields and can provide balanced fertilizer dose for successful crop production to be taken by the farmers and run it profitably.
- Collect the uniform, representative soil samples from the farmer's fields.
- Convince the farmers for soil health improvement by advising the correct soil amendment of problematic soils.
- Suggest organic sources of plant nutrients based on soil testing results

M.S.P. MANDALA'S DEOGIRI COLLEGE
DEPARTMENT OF BOTANY

SOIL TESTING ACTIVITY 2020-2021:

Department of Botany has 80% students from rural area and 45% students are from farmer's family. To increase the awareness about soil health we started the soil analysis facility in the department. This activity runs with the collaboration of Government Agriculture soil testing institute. Samples were collected from student's native place and analysis were done free of cost.Farmers of Marathwada region facing drought or insufficient irregular rain fall from last few years. Because of this we all facing economic crisis. To minimize effect of drought on the crops one can concentrate on soil fertility.

Soil Testing is well recognized as a sound scientific tool to assess inherent power of soil to Supply plant nutrients. The benefits of soil testing have been established through scientific research, extensive field demonstrations, and on the basis of actual fertilizer use by the farmers. Soil testing was initiated in the country in the beginning of planning era by setting up of 16 soil testing laboratories during 1955. Government of India has been supporting this programme during different plan periods to increase the soil analyzing capacity in the country. Planners and agriculturalists have recognized the utility of the service fully but it suffers due to inadequate scientific support in its execution.

To provide the soil testing laboratories with suitable technical literature on various aspects of soil testing, including testing methods and formulations of fertilizer recommendations etc.

Soil analysis is a valuable tool for farm as it determines the inputs required for efficient and economic production. A proper soil test will help ensure the application of enough fertilizer to meet the requirements of the crop while taking advantage of the nutrients already present in the soil. It will also allow determining lime requirements and can be used to diagnose problem areas. Soil testing is also a requirement for farms that must complete a nutrient management plan.

In this pandemic situation it is very difficult to conduct soil testing trainingfor undergraduate students. Therefore, we are conducted online lectures, practicals and training programme for B.Sc. IIyear students of Botany, Deogiri College Aurangabad in regular online classroom. Total 70 students attending regular lectures. We are conducted 5 lectures and 3 practicals. Department also organized one guest lecturer. Departmental staff actively participated in every programme. Online lectures, tests and viva conducted by staff:

Guest lecturer:20-21

Guest lecturer was held online by the Department of Botany on 28/07/2021. The session was held from 12:00pm to 2:00 pm. Guest Dr.S.T.Kayande (Coordinator Soil testing Dept.) was welcomed by Dr. S.K.Rajurkar. Introduction of guest was given by Dr.A.S.Taware. Head of the department Prof. R. P. Patil in his speech express his view regarding the training and requested to students to contribute for the benefit of farmers and society. Aims and Objectives of the meet were explained to the students and ensured to get help from the teachers. Total 40 students were attended this online meeting. For this event the Teaching and non-teaching faculty of botany department were present.

Letter of Gratitude

To,

Dr.S.T.Kayande

Warm greetings,

I express sincere thanks for your valuable online talk to our students of MSc and BSc Botany on the subject "Soil Testing- Need of Farmers"On Date28/07/21.

Your motivational talk will certainly beneficial and will encourage our students in shaping their career. It gives me immense pleasure in issuing this letter of gratitude to you, I am hopeful you will be guiding our students in the future as well. This institute will be indebted for your contribution.Thanking you.

PROGRAM REPORT
RECENT TRENDS IN GEOLOGICAL SCIENCES

One Day National Webinar on "**Human impacts and anthropocene characters in a Holocene background recorded by geochemical studies**" was organized by Department of Geology, Deogiri College, Aurangabad in collaboration with **Rajarshi Shahu Arts, Science, Commerce College, Pathri, Phulambri Aurangabad**. The webinar was conducted online on Ist Sept. 2021 from 03.00 to 04.30 pm. This International Webinar was organized on the Zoom platform and 112 participants were present for the same.

The resource person **Dr. Ramamoorthy Ayammperumal** delivered his talk on ***the decided topic.*** He explained in detail the advanced trends and human impacts caused in a Holocene age due to the anthropogenic activities. The webinar was very fruitful for students and faculty in terms of understanding new trends in the geological sciences and new concepts in the subjects.

Brief Details of the Program:

Type of Activity	Topic	Date and time	Place of event	Chief speakers	Number of Participants
Research Activity	**Human impacts and anthropocene characters in a Holocene background recorded by geochemical studies**	Ist Sept, 21	Online	Dr. Ramamoorthy Ayammperumal	112

Report of Hands-on Handling A Google Classroom 2020-21

A Hands-on Handling session on Google Classroom 2020-21 was conducted by the Department of Computer Science and IT & Animation for the students of First Year BCS on Friday 12th November 2021 at 12:45pm.

Initially the students were given the ID and passwords for the Google classroom. They were instructed to download Google Classroom and Google Meet from the play store in their mobiles.

They were given demonstration as to how they should accept the invitation for the Google Classroom in the special Notice Board class which was created for them.

They were also instructed to accept the invitation for the Google Meet through the classroom.

Instructions and demonstrations were given by the faculty members of the department Ms. Pradnya Awate, Ms. Shivani Bhosle and were assisted by Ms. Jyotsna Gaikwad.

36 students registered their names for the Google Classroom and Google Meet. The students took keen interest in learning a new aspect of online communication and instructions.

MEMORANDUM OF UNDERSTANDING FOR EXCHANGE & COLLABORATION BETWEEN DEPARTMENT OF COMPUTER SCIENCE, IT & ANIMATION, DEOGIRI COLLEGE, AURANGABAD AND SOCIO PANDA, AURANGABAD

This Memorandum of Understanding (MoU) is entered into under the agreement on exchange and collaboration in academic, training and project related activities on the 27th day of September 2021 by and between Department of Computer Science,IT &Animation, Deogiri College, Aurangabad (hereinafter called CSITA-DCA) situated at Aurangabad (Maharashtra), an institution run by M. S. P. Mandal, Aurangabad and Socio Panda Trainers & Consultants (hereinafter called SPTC), a firm registered under MSME , a Sole Proprietary firm situated at Aurangabad (Maharashtra), , run by Mr. Prathamesh U. Kulkarni, Aurangabad.

Socio Panda is engaged in offering internship and live projects and training for industries in India and abroad in the field of multimedia & animation and digital marketing.

1. Objectives of the MoU

The objectives of the MoU are:

a) To have exchange and collaboration on student Training Programs, Student's Workshops, Student's Internship Programs, Temporary / Contractual placement and other related activities, as and when required by CAITA-DCA and SPTC and allied companies. This MoU is for the Period of 2 (TWO YEARS) from the Date of Execution i.e. upto 26th September 2023.

b) Student guidance for starting freelance journey in the field of multimedia & animation and Digital Marketing.

c) To provide opportunity to the students to work on Live Projects.

d) To train students for Image editing and Video editing skills.

e) To train students for content writing, Web designing and Digital Marketing skills.

2. Technical Areas of Collaboration

a) Collaboration in terms of students' placement information dissemination, organization of placement drives and pre-placement workshops for the students, as and when required.

b) Collaborations in areas of quality enhancement activities like trainings, workshops, seminars, internships, etc. and other quality enhancement related activities.

c) All Internship Programs being considered will be in HYBRID (ONLINE as well as OFFLINE) MODE.

Principal
Deogiri College,
Aurangabad.

DEOGIRI COLLEGE Seal AURANGABAD

Terms and Conditions

The MoU would be executed under the following (and not restricted to) the General Guidelines:

1. Both collaborators will share information related to unpaid type of Student's Internship Programs and also Campus Placement Drives and jointly take part in pre-campus placement workshops for preparing students for the drive, as and when required.

2. Both entities will designate persons who will have to take care according to this agreement.

3. All the expertise and personnel shall be provided by SPTC from time to time.

4. The names of institutions for publicity may be used in consent of each other with writing permission by mentioning the platform of publicity at each time.

5. Changes to this agreement shall be made by mutual consent between both collaborators.

6. Duration of MoU : This MoU shall be in effect for 2 Years from the date of Execution of MoU i,e, upto 26th September 2023 and it can be terminated by either of the parties by giving one month prior notice during MoU period.

Department of Electronics

Date: 08th Dec 2021 Time: 01.00 PM

Report on

Skill Development for Industries

The department of Electronics has a MoU with "Bageshree Instrumentation Trainers and Consultants (BITC-2104)" for exchange and collaboration of academic activities. Under this MoU, the department of Electronics planned a "Skill Development for Industries" for B.Sc. Electronics students on 08th Dec 2021 from 1.00 PM. Accordingly, the activity was finalized after communication with Mr. Omprakash Barure, Director, BITC-2104, Aurangabad.

The program was inaugurated in presence of speaker Mr. Omprakash Barure in on-line mode and Dr. S.N.Helambe, Head, Dept. of Electronics, staff and students in offline mode. The introduction of speaker was given by Dr.Ms. Kanchan Pattebahadur, Assistant Professor, Dept. of Electronics, Deogiri College Aurangabad.

There is gap between University curriculum and actual Electronic technologies used in Industry. The industry is in need of skill manpower in the field of Electronics controls and advance electronics communication used for industrial control systems.

The main aim of this program was to make aware the students about skills required for Industrial Electronics control systems and the career opportunities in Electronics Industries. For getting ready to work for industry, students need to fill up the gap between curriculum and skill required for industry by completing add-on courses.

The speaker Mr. Omprakash Barure, Director, BITC-2104 highlighted the various Electronics practical skills required for Industrial automation and Mr. Bapusaheb Dhage focused on PLC Programming Languages such as Ladder Diagram, Sequential function charts, Function block diagram, structured text languages and SCADA.

Deogiri College,
Aurangabad.

26 students participated in this program for career guidance. The students asked the various questions about skills required and availability of add-on courses which will help them to get ready for work in Electronics Industry or any other Industry for Electronics section.

The vote of thanks was proposed by Mr. Ajay Sable, Assistant Professor, Dept. of Electronics, Deogiri College Aurangabad.

Workshop on PCB Designing

The Department of Electronics has organized a three day workshop on **"PCB Designing"** on 09-12-2021 to 11-12-2021 in collaboration of "Originative Vision Electronics Pvt Ltd". The Department of Electronics arranges various kinds of workshops on continuous basis to enhance student's practical and technical skill and to make them compatible with industry. Accordingly, the activity was finalized after communication with Dr. Mayur Kumavat, Director, Originative Vision Electronics Pvt Ltd, Aurangabad.

The program was inaugurated in presence of speaker Mr. Mayur Kumavat in Off-line mode and Dr. S.N.Helambe, Head, Dept. of Electronics, staff and students in offline mode. The introduction of speaker was given by Dr.Ms. Kanchan Pattebahadur, Assistant Professor, Dept. of Electronics, Deogiri College Aurangabad.

The workshop was aimed to provide knowledge about Complete PCB Designing. PCB design software named "DIP trace" & to make physical PCB at home so that any student can make project on his own. Almost 25 students from department of Electronics have participated in workshop.

Following content are covered in workshop:

- Schematic Design
- Layout Design
- Component Footprint Design
- PCB Design & Routing
- Etching of PCB
- Soldering of Components on to PCB.
- Testing of PCB

DEOGIRI COLLEGE Seal AURANGABAD

Principal
Deogiri College,
Aurangabad.

On the first day of workshop, Dr. Mayur Kumavat has started with introduction of PCB Designing, benefits of the workshop and its applications. He explained Schematic Design of Circuit, PCB layout design on software, benefits of using DIP Trace, pointers to make precise schematic design and identification of electronic components. The participants also tried to identify the various electronic components and demo circuits provided.

On the second day of workshop, He delivered information to the students about printing of circuit on PCB and etching process.

On the last day of workshop, He focuses on drilling, component mounting and testing process.

The vote of thanks was proposed by Mr. Ajay Sable, Assistant Professor, Dept. of Electronics, Deogiri College Aurangabad.

Hands-on A Google Classroom 2020-21

Department: Computer Science and I.T. & Animation

A Hands-on Handling session on Google Classroom 2020-21 was conducted by the Department of Computer Science and IT & Animation for the students of First Year **M.Sc. C.S.** on Friday **14th December 2021** at **08:00am.**

Initially the students were given the ID and passwords for the Google classroom. They were instructed to download Google Classroom and Google Meet from the play store in their mobiles.

They were given demonstration as to how they should accept the invitation for the Google Classroom in the special Notice Board class which was created for them.

They were also instructed to accept the invitation for the Google Meet through the classroom.

Instructions and demonstrations were given by **Ms. Deepali Mahajan**. 16 students registered their names for the Google Classroom and Google Meet. The students took keen interest in learning a new aspect of online communication and instructions.

MSP Mandal's

Deogiri College, Aurangabad

Department of Computer Science, I.T. & Animation

1. Title of the Course: Hands on Smart Web Designing using Bootstrap

2. Background of the course:

This mobile-first responsive design course teaches students how to use the Bootstrap 3 CSS framework to build websites with fluid and adaptive grid layouts.

Unlike our primary responsive web design course this Bootstrap3 course is focused entirely on the practicalities of designing websites using this one tool, i.e. it makes little attempt to teach the fundamental responsive web design skills that the other course does.

As such, this course is oriented towards students whose primary purpose is just to get a mobile-first responsive design up and running quickly and immediately. Such students may already have the generic responsive skills or they may plan to acquire them later.

Pre requisite:

Delegates should have completed the following Web Design Academy courses, or be able to demonstrate equivalent skills and learning:

- CSS Fundamentals (CSS-03)
- CSS3 Essentials (CSS3-01)

We assume that anyone with the skills and knowledge taught in those courses will also have a good conceptual understanding of HTML and enough knowledge of HTML5 to pick up the basics of Bootstrap3 from the introductory module of this course

3. Brief information about the department:

The department of computer science, I.T. & Animation under the guidance of the head of the department Dr. S.N. Helambe runs under graduate and post graduate courses in B.Sc. I.T., BCA(sci.), B.Sc.(Opt. Comp. Sci.), B.Sc.(Comp. Sci.), M.Sc. (C.S.), M.Sc. (I.T.) as well as B.Voc.(Multimedia & Animation). Department also runs Add-On courses for skill development for the students.

Head
Department of Computer Science
Deogiri College Aurangabad.

Aurangabad.

4. Objectives:

- Build a mobile-first website using Bootstrap
- Build responsive designs with Bootstrap
- Design layouts adhering to a baseline grid
- Design layouts adhering to a fluid grid
- Understand how the HTML, CSS and JavaScript components of Bootstrap work
- Customise a Bootstrap installation
- Optimise a Bootstrap design for target device features
- Create responsive images and graphics

5. Expected Outcomes:

- Understand code solutions and compile Web projects.
- Demonstrate knowledge of object-oriented concepts Design user experience and functional requirements Bootstrap.
- Construct classes, methods, and assessors, and instantiate objects.
- Understand and implement string manipulation, events and exception handling
- Create and manipulate GUI components
- Identify and resolve problems (debug /trouble shoot) in web based application
- Identify Industry defined problem and suggesting solution(s) using .Bootstrap.

At the end of this course the students will be able to:

- Develop. Attractive Web Application which runs on every web platform.
- Build a mobile-first website using Bootstrap
- Build responsive designs with Bootstrap

6. Name of the course coordinator: 1) Mr. R. A. Magre

Principal
Deogiri College,
Aurangabad.

Hands on Certificate Course

"Smart Website Designing Using Bootstrap"

(2019-2020)

Test Paper

Marks: 50 Time: 1 Hr

Principal
Deogiri College,
Aurangabad.

1. Bootstrap framework is developed by_____
A) Facebook B) Twitter C) Google D) Linked in

2. The Bootstrap grid system is based on how many columns?
A) 12 B) 6 C) 3 D) 9

3. Which class shapes an image to a circle?
A) .img-round B) .img-rounded
C) .img-circle D) .img-thumbnail

4. Which class is useful for showing the content by device via media query for small device?
A) .visible-sm B) .visible-xs C) visible-md D) All

5. Which button class is used to create a large button?
A) .btn-lg B) .btn-l C) .btn-large D) .btn-xl

6. Which class is used to set the alignment of blockquotes to the right?
A) .blockquote B) .reverse
C) .blockquote-reverse D) None

7. How can you insert a search icon?
A)
B)
C)
D)

8. Which class is used to create a badge?
A) .badge B) .label C) .flag D) .tag

9. Which class is used to create a basic list group?
A) .list-group B) .btn-group C) .group D) .group-list

10. Which class adds a heading to a panel?
A) .panel-head B) .panel-heading
C) .panel-footer D) .panel-header

11. Which of the following is not a contextual button class?
A) .btn-default B) .btn-primary
C) .btn-warn D) .btn-info

DEOGIRI COLLEGE Seal AURANGABAD

Head
Department of Computer Science
Deogiri College Aurangabad.

12. Which class is used to create a black navigation bar?
A) .navbar-default B) .navbar-dark
C) .navbar-inverse D) .navbar-black

13. Which of the following is default form layout in bootstrap?
A) Vertical B) Horizontal C) Inline D) None

14. Which plugin is used to cycle through elements like slide show?
A) carousel B) scrollspy C) slide show D) Orbit

15. Which plugin is used to create a modal window?
A) window B) popup C) dilog D) modal

16. Which class gives the content inside it the sunken effect?
A) .well B) .jumbotron C) .panel D) .sunken

17. which class creates a striped progress bar?
A) .progress-bar-striped B) .striped-progress
C) .progress-striped D) .progressbar-striped

18. Which class is used to hide the toggle image gallery?
A) .hide B) .close C) .collapse D) .hidden

19. Which class is used to animate the element?
A) .animate B) .animation C) .fade D) .anm

20. Which class is used to create a alert box?
A) .box B) .msg C) .alert D) .alertbox

21. Which plugin is used to automatically highlights the navigation link based on the scroll position?
A) srollspy B) tooltip C) highlight D) hlt

22. Which plugin is used to pin the elements when they are scrolled beyond a certain point?
A) pin B) fixed C) pause D) affix

23. Which class formats a input elements of a form?
A) .control B) .form-control
C) .form-element D) .formcontrol

24. Which of the following is advantage of using bootstrap?
A) Responsive B) Consistency
C) Customizable D) All

25. How many folders bootstrap file consist?
A) 1 B) 2 C) 3 D) 4

Note

Dt. 06/01/2020

Respected Sir,

The department of **Computer Science, IT and Animation** is willing to start the following Hands on courses from **6th January, 2020.**

Sr. No.	Name of Courses	Batch Time	Course Fee	Name of Trainer
1	Smart Website Designing using Bootstrap	5.30 PM	Rs. 1000/-	Mr. Ritesh Magre
2	ASP Programming	2.00 PM	Rs. 1000/-	Mr. Amarnath Pohnerkar
3	Python Programming	8.00 AM	Rs. 1000/-	Mr. Ramesh Naik
4	JAVA Programming	5.30 PM	Rs. 1000/-	Mr. Shriram Kathar
5	~~Android~~ Arduino Programming and Application	9.00 AM	Rs. 1000/-	Dr. T.A. Prajapati

Kindly grant permission to start the course so as to communicate the same to the students to encourage and taking up this program for their career development.

With sincere thanks and regards.

* Course duration :- 30 Hrs.

MSP Mandal's

Deogiri College, Aurangabad

Department of Computer Science, I.T. & Animation

1. Title of the Course: Hands on Python Programming

2. Background of the course:

Python is an easy to learn, powerful programming language. It has efficient high-level data structures and a simple but effective approach to object-oriented programming. Python's elegant syntax and dynamic typing, together with its interpreted nature, make it an ideal language for scripting and rapid application development in many areas on most platforms

3. Brief information about the department:

The department of computer science, I.T. & Animation under the guidance of the head of the department Dr. S.N. Helambe runs under graduate and post graduate courses in B.Sc. I.T., BCA(sci.), B.Sc.(Opt. Comp. Sci.), B.Sc.(Comp. Sci.), M.Sc. (C.S.), M.Sc. (I.T.) as well as B.Voc.(Multimedia & Animation). Department also runs Add-On courses for skill development for the students.

4. Objectives:

- To understand why Python is a useful scripting language for developers.
- To learn how to design and program Python applications.
- To learn how to use lists, tuples, and dictionaries in Python programs.
- To learn how to identify Python object types.
- To learn how to use indexing and slicing to access data in Python programs.
- To define the structure and components of a Python program.
- To learn how to write loops and decision statements in Python.
- To learn how to write functions and pass arguments in Python.
- To learn how to build and package Python modules for reusability.
- To learn how to read and write files in Python.
- To learn how to design object oriented programs with Python classes.
- To learn how to use class inheritance in Python for reusability.
- To learn how to use exception handling in Python applications for error handling.

Principal
Deogiri College,
Aurangabad.

DEOGIRI COLLEGE * Seal * AURANGABAD

Head
Department of Computer Science

5. Expected Outcomes:

- Master the fundamentals of writing Python scripts
- Learn core Python scripting elements such as variables and flow control structures
- Discover how to work with lists and sequence data
- Write Python functions to facilitate code reuse
- Use Python to read and write files
- Make their code robust by handling errors and exceptions properly
- Work with the Python standard library
- Explore Python's object-oriented features
- Search text using regular expressions

At the end of this course the students will be able to:

- Develop. Python Application using GUI which runs on every platform.
- Get job opportunity in IT industry
- Master the fundamentals of writing Python scripts
- develop the ability to write database applications in Python

6. Name of the course coordinator: 1) Mr. R. R. Naik

Head
Department of Computer Science
Deogiri College Aurangabad.

Syllabus Python Programming

Chapters	Detailed Contents	Hours
1	Introduction to computer programming languages.	12
2	Brief introduction to Python, Installation of python and Anaconda , History, Features, Setting up path, Working with Python, Basic Syntax.	
3	Data types, variables, mathematical operations and expressions, Use of python as an advanced scientific calculator with **math** and **cmath** modules	04
4	Logical operators, Control Flow (if-else, switch case, etc.) and Loops	14
5	Functions and Modules, Object Oriented Programing	
6	Dealing with strings, Lists, tuples, Dictionaries	
7	File management.	
8	GUI with Python	12
	Total	42

Academic Year 2019-2020

Course Name: Hands on Python Programming **Duration :** 30 Hours

Name of Coordinator: Mr. Ramesh R. Naik

Start Date : 06/01/2020 **End Date :** 15/02/2020

Theory Marks : 50

Practical Marks: 0

Total Marks : **50**

Note :

1. For 50 marks practical evaluation
   a. one major question 40 marks and viva 10 Marks
2. For theory 50 marks Evaluation
   a. 50 marks for MCQ's
3. For 100 marks evaluation
   a. 40 marks for practical question 10 marks for viva
   b. 50 marks for MCQ's
   a.

"Python Programming"

(2019-2020)

Test Paper

Marks: 50 **Time: 1 Hr**

---

1. Is Python case sensitive when dealing with identifiers?
a) Yes b) no
c) Machine dependent d) none of the mentioned

2. Which of the following is not a keyword?
a) eval b) assert
c) nonlocal d) pass

3. What will be the output of the following Python code?
```
print ('{0:.2}'.format(1/3))
```
a) 0.333333 b) 0.33
c) 0.333333:.2 d) Error

4. What is the return type of function id?
a) int b) float
c) bool d) dict

5. What will be the output of the following Python code?
```
x = ['ab', 'cd']
for i in x:
   i.upper()
print(x)
```
a) ['ab', 'cd'] b) ['AB', 'CD']
c) [None, None] d) none of the mentioned

6. Which of the following commands will create a list?
a) list1 = list() b) list1 = []
c) list1 = list([1, 2, 3]) d) all of the mentioned

7. What will be the output of the following Python code?
```
x = 'abcd'
for i in x:
   print(i.upper())
```
a) a b c d b) A B C D
c) a B C D d) error

8. Which of the following statements create a dictionary?
a) d = {} b) d = {"john":40, "peter":45}
c) d = {40:"john", 45:"peter"} d) All of the mentioned

9. Which of the following mode will refer to binary data?
a) r b) w
c) + d) b

10. What will be the output of the following Python code?
```
y = 6
z = lambda x: x * y
print z(8)
```
a) 48 b) 14
c) 64 d)None of the mentioned

11. Which of the following is a Python tuple?
a) [1, 2, 3] b) (1, 2, 3)
c) {1, 2, 3} d) {}

12. What are the two main types of functions?
a) Custom function b) Built-in function & User defined function
c) User function d) System function

13. What will be the output of the following Python code?
```
for i in range(10):
   if i == 5:
      break
   else:
      print(i)
else:
   print("Here")
```
a) 0 1 2 3 4 Here b) 0 1 2 3 4 5 Here
c) 0 1 2 3 4 d) 1 2 3 4 5

14. What is the output?
```
d = {"john":40, "peter":45}
d["john"]
```
A. 40 B. 45
C. "john" D. "peter"

15. Which of the following data types is not supported in python?
A. String B. Numbers
C. Slice D. List

16. Mathematical operations can be performed on a string.
a) True b) False

17. Operators with the same precedence are evaluated in which manner?
a) Left to Right b) Right to Left
c) Can't say d) None of the mentioned

18.Which of these in not a core data type?
a) Lists b) Dictionary
c) Tuples d) Class

19. What is "Hello".replace ("l", "e")?
a) Heeeo b) Heelo
c) Heleo d) None

20. How many keyword arguments can be passed to a function in a single function call?
a) zero b) one
c) zero or more d) one or more

21. Which is/are the basic I/O connections in file?
a) Standard Input b) Standard Output
c) Standard Errors d) All of the mentioned

22. Python supports the creation of anonymous functions at runtime, using a construct called _____
a) lambda b) pi
c) anonymous d) none of the mentioned

23. How are default arguments specified in the function heading?
a) identifier followed by an equal to sign and the default value
b) identifier followed by the default value within backticks (")
c) identifier followed by the default value within square brackets ([])
d) identifier

24. To open a file c:\scores.txt for reading, we use _____
a) infile = open("c:\scores.txt", "r")
b) infile = open("c:\\scores.txt", "r")
c) infile = open(file = "c:\scores.txt", "r")
d) infile = open(file = "c:\\scores.txt", "r")

25. Which of the following statements are true?
a) When you open a file for reading, if the file does not exist, an error occurs
b) When you open a file for writing, if the file does not exist, a new file is created
c) When you open a file for writing, if the file exists, the existing file is overwritten with the new file
d) All of the mentioned

"Python Programming"

(2019-2020)

Test Paper

Marks: 50 **Time: 1 Hr**

---

1. Is Python case sensitive when dealing with identifiers?
a) Yes b) no
c) Machine dependent d) none of the mentioned

2. Which of the following is not a keyword?
a) eval b) assert
c) nonlocal d) pass

3. What will be the output of the following Python code?
print ('{0:.2}'.format(1/3))
a) 0.333333 b) 0.33
c) 0.333333:.2 d) Error

4. What is the return type of function id?
a) int b) float
c) bool d) dict

5. What will be the output of the following Python code?

```
x = ['ab', 'cd']
for i in x:
    i.upper()
print(x)
```

a) ['ab', 'cd'] b) ['AB', 'CD']
c) [None, None] d) none of the mentioned

6. Which of the following commands will create a list?
a) list1 = list() b) list1 = []
c) list1 = list([1, 2, 3]) d) all of the mentioned

7. What will be the output of the following Python code?

```
x = 'abcd'
for i in x:
    print(i.upper())
```

a) a b c d b) A B C D
c) a B C D d) error

8. Which of the following statements create a dictionary?
a) d = {} b) d = {"john":40, "peter":45}
c) d = {40:"john", 45:"peter"} d) All of the mentioned

9. Which of the following mode will refer to binary data?
a) r b) w
c) + d) b

10. What will be the output of the following Python code?

```
y = 6
z = lambda x: x * y
print z(8)
```

a) 48 b) 14
c) 64 d)None of the mentioned

11. Which of the following is a Python tuple?

a) [1, 2, 3] b) (1, 2, 3)

c) {1, 2, 3} d) {}

12. What are the two main types of functions?
a) Custom function b) Built-in function & User defined function
c) User function d) System function

13. What will be the output of the following Python code?

```
for i in range(10):
    if i == 5:
        break
    else:
        print(i)
else:
    print("Here")
```

a) 0 1 2 3 4 Here b) 0 1 2 3 4 5 Here
c) 0 1 2 3 4 d) 1 2 3 4 5

14. What is the output?

```
d = {"john":40, "peter":45}
d["john"]
```

A. 40 B. 45
C. "john" D. "peter"

15. Which of the following data types is not supported in python?

A. String B. Numbers

C. Slice D. List

16. Mathematical operations can be performed on a string.
a) True b) False

17. Operators with the same precedence are evaluated in which manner?
a) Left to Right b) Right to Left
c) Can't say d) None of the mentioned

18.Which of these in not a core data type?
a) Lists b) Dictionary
c) Tuples d) Class

19. What is "Hello".replace ("l", "e")?
a) Heeeo b) Heelo
c) Heleo d) None

20. How many keyword arguments can be passed to a function in a single function call?
a) zero b) one
c) zero or more d) one or more

21. Which is/are the basic I/O connections in file?
a) Standard Input b) Standard Output

Note

Dt. 06/01/2020

Respected Sir,

The department of **Computer Science, IT and Animation** is willing to start the following Hands on courses from **6th January, 2020.**

Sr. No.	Name of Courses	Batch Time	Course Fee	Name of Trainer
1	Smart Website Designing using Bootstrap	5.30 PM	Rs. 1000/-	Mr. Ritesh Magre
2	ASP Programming	2.00 PM	Rs. 1000/-	Mr. Amarnath Pohnerkar
3	Python Programming	8.00 AM	Rs. 1000/-	Mr. Ramesh Naik
4	JAVA Programming	5.30 PM	Rs. 1000/-	Mr. Shriram Kathar
5	~~Android~~ Arduino Programming and Application	9.00 AM	Rs. 1000/-	Dr. T.A. Prajapati

Kindly grant permission to start the course so as to communicate the same to the students to encourage and taking up this program for their career development.

With sincere thanks and regards.

* Course duration :- 30 Hrs.

Department of Computer Science, I.T. & Animation

1. Title of the Course: Hands on Web designing using ASP

2. Background of the course:

The .Net framework is a software development platform developed by Microsoft for the first time in 2002. The framework was meant to create applications, which would run on the Windows Platform. The first version of the .Net framework was called 1.0. Since then, the .Net framework has come a long way and its current version is 4.7.1. The below write-up describes the .Net Framework and its scope in detail.

The .Net framework can be used to develop both - form-based and web-based applications. The framework also supports various programming languages such as Visual Basic and C#. In this chapter, you will learn some basics of the .Net framework.

Nowadays, the IT sector is a highly promising industry with diverse employment opportunities. DOT Net is among the core programming languages that drove the growth of the IT industry globally. DOT Net is a versatile programming tool used to develop software tools and products adaptable to various complicated and distinct system environments. The framework is the most suitable tool to develop software tools for Windows-based web and server applications.

3. Brief information about the department:

The department of computer science, I.T. & Animation under the guidance of the head of the department Dr. S.N. Helambe runs under graduate and post graduate courses in B.Sc. I.T., BCA(sci.), B.Sc.(Opt. Comp. Sci.), B.Sc.(Comp. Sci.), M.Sc. (C.S.), M.Sc. (I.T.) as well as B.Voc.(Multimedia & Animation). Department also runs Add-On courses for skill development for the students.

4. Objectives:

- Demonstrate the fundamental aspects of modern computer programming
- Design and implement .NET web application
- Write object-oriented logic using C# and Visual Basic (classes and libraries)
- Leverage Visual Studio for code generation, user interface design, testing, and debugging
- Build SQL Server databases and access them using the Entity Framework (EF)

Principal
Deogiri College,
Aurangabad.

5. Expected Outcomes:

DEOGIRI COLLEGE Seal AURANGABAD

Head
Department of Computer Science
Deogiri College Aurangabad.

- Understand code solutions and compile ASP. NET projects within the .NET framework.
- Demonstrate knowledge of object-oriented concepts Design user experience and functional requirements ASP.NET application.
- Construct classes, methods, and assessors. and instantiate objects.
- Understand and implement string manipulation, events and exception handling within .NET application environment.
- Create and manipulate GUI components in ASP.NET
- Design and Implement Windows Applications using Windows Forms. Control Library, Advanced UI Programming & Data Binding concepts
- Identify and resolve problems (debug /trouble shoot) in ASP.NET window based application
- Identify Industry defined problem and suggesting solution(s) using .NET application.

At the end of this course the students will be able to:

- Develop . NET Web Application
- Develop Back-end

6. Name of the course coordinator: 1) Mr. Amarnath Pohanerkar

Hands on Certificate Course of "Web designing using ASP"
(2019-2020)
Test Paper
Marks: 50 **Time: 1 Hr**

1. What does ASP stand for?
a. Active Server Page b. A Server Page.
c. All Standard Page d. Active Standard Pages.

2. ASP server scripts are surrounded by delimiters, which?
a. <% %> b. <!-- -->
c. <script></script> d.<%><%>

3. How do you write "Hello World" in ASP?
a. Document.Write b. "Hello World"
c. Response.Write("Hello World");
d. None of the above

4. Which of the following server control is used to take input from user?
a. Dropdown List b. Text Box
c. Radio Button d. Check Box

5. Which Validation control is used for input requirement?
a. Regular Field Validator
b. Compare Validator
c. Range Validator
d. Required Field Validator

6. Which Validation control is used to create your own validation?
a. Regular Field Validator
b. Compare Validator
c. Range Validator
d. Custom Validator

7. Which of the following server Control is used to select only one option amongst many?
a. Check Box b. List Box
c. Radio Button d. Label

8. Which of the following property is used to ensure user has uploaded file using file control?
a. Has File b. isValid
c.IsPostBack d. None of the above

9. Which of the following scripting language is integrated in ASP.NET?
a. jquery b. java script
c.php d. none of the above

10. Which of the following property is used to display value of drop down list?
a. Selected Index.
b. SelectedItems.Value
c. SelectedValue
d. both b and c

(Principal
Deogiri College,
Aurangabad.

11. Which server is used to run ASP page?
a. IIS b. Apache c. XAMPP
d. None of the above

12. Which of the following server control is allowed multiple selections?
a. check box b. list box
c. dropdown list d. both a &b

13. Which of the following class is used for type casting ?
a. Response b. Server
c.Convert d.color

14. Which of the following are value types?
a. String b. System .Value
c. System.Drawing
d. System.Drawing.Point

15. Which of the following are reference types?
a. String b. Exception
c. Class d. All of the above

16. Match the following List 1 (Controls) to List 2.
a. Image –i. Navigate, PostBack, Inactive HotSpotMode
b. ImageButton - ii. Container control
c. ImageMap - iii. Has command event
d. MultiView -iv. Does not have click event

a. a-iv, b-iii, c-i, d-ii
b. a-ii, b-iv, c-i, d-iii
c. a-ii, b-i, c-iii, d-iv
d. a-iv, b-iii, c-i, d-ii

17. Which of the following is not an ASP.NET page event?
a. Init b. Load
c. Import d. None of the above.

18. Which file is used to write the code to respond to the Application_Start event?
a. Any ASP.NET web page with an .aspx extension
b. Web.config
c. Global.asax d. None of the above.

19. Using which type of stylesheet we can change the style of an element in the entire website?
a. Internal Stylesheet
b. External Stylesheet
c. Inline stylesheet
d. None of these above

DEOGIRI COLLEGE Seal AURANGABAD

20. Some control, by default, does not cause an automatic PostBack, i.e TextChanged event of TextBox. Which property will you set for automatic postback of these types of controls?
a. isPostBack="false"
b. isPostBack="true"
c. PostBack="true"
d. AutoPostBack="true"

21. ASP.NET Validation Control works at _____ .
a. Client side only.
b. Server side only.
c. Both Client Side and Server Side
d. None of the above.

22. What are the types of Web Server Button Controls that can be created?
a. Only Submit buttons
b. Only Command buttons
c. Submit and command buttons
d. None of the above.

23. A web page has lots of input data, and you want the data input to be spread across multiple screens. What is the best control to implement this solution on a single Web page?
a. ImageMap
b. Panel
c. Wizard
d. None of the above.

24. Which validation control is used to ensure user has entered proper mail?

a. Regular Expression
b.Validation Summary
c. Range validation
d.Required field

25. You need to programmatically configure page output caching. Which object would you use?
a. Request
b. Response
c. Application
d. Server

REPORT OF THE ACTIVITY

Workshop on Photography

Organized by

Dept. of Dramatics, Deogiri College, Aurangabad

During

2,3. 3. 2020

Introduction:

With the knowledge of Drama Students need to know other medium so department have arranged workshop on photography. This workshop conducted by famous photographer Shri Kishore Nikam.

Date	Time	Instructor	Subject
2, 3.3.2020	10 to 3 pm	Shri Kishore Nikam Dr. Niraj Borse (HOD) Shri RatnaVahule	Photography

Main Event:

Kishore Nikam is well known photographer he got international awards in photography. And Kishore Nikam explained not only photography but also, he explained the camera function and technical knowledge about camera and also, he explained type of photography like product photography, event photography, micro photography etc, and he told the students how to click beautiful photographs with practical's

विषय: अतिथी व्याख्याते म्हणून उपस्थित राहणे बाबत (दोन दिवस पूर्ण वेळ)

महोदय,

नमस्कार, देवगिरी महाविद्यालयाच्या नाट्यशास्त्र विभागात B.Voo (Theatre and Stage craft) या अभ्यासक्रमांतर्गत विविध विषयावर अभ्यासक्रमासंबंधी व्याख्याने आयोजित केली जातात. विद्यार्थी आणि शिक्षक यांच्या ज्ञानाच्या कक्षा वाढाव्यात, त्यांचा आवाका विस्तृत व्हावा म्हणून आपलेही व्याख्यान "नाट्य आणि चित्रपट निर्मिती" या विषयावर व्याख्यान ठेवले आहे. तरी आपण उपस्थित राहून सहकार्य करावे ही नम्र विनंती.

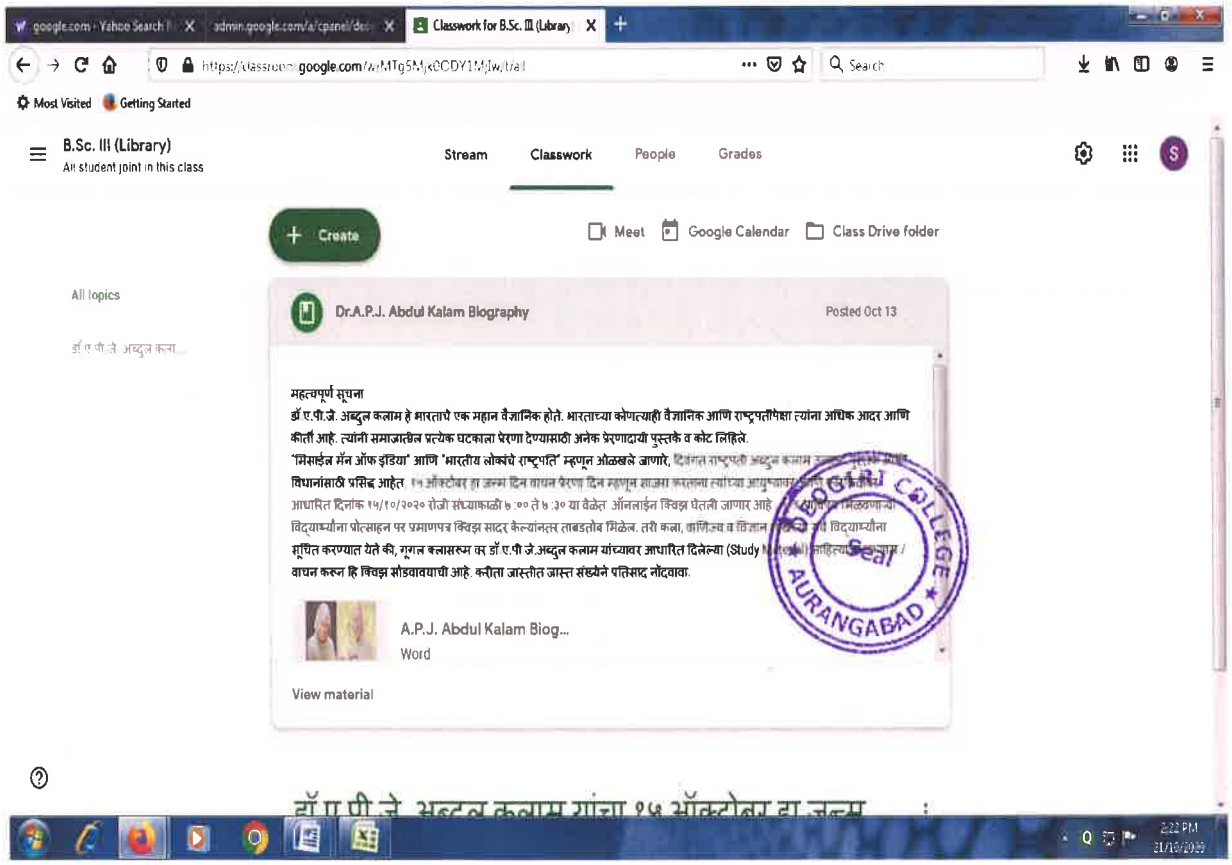
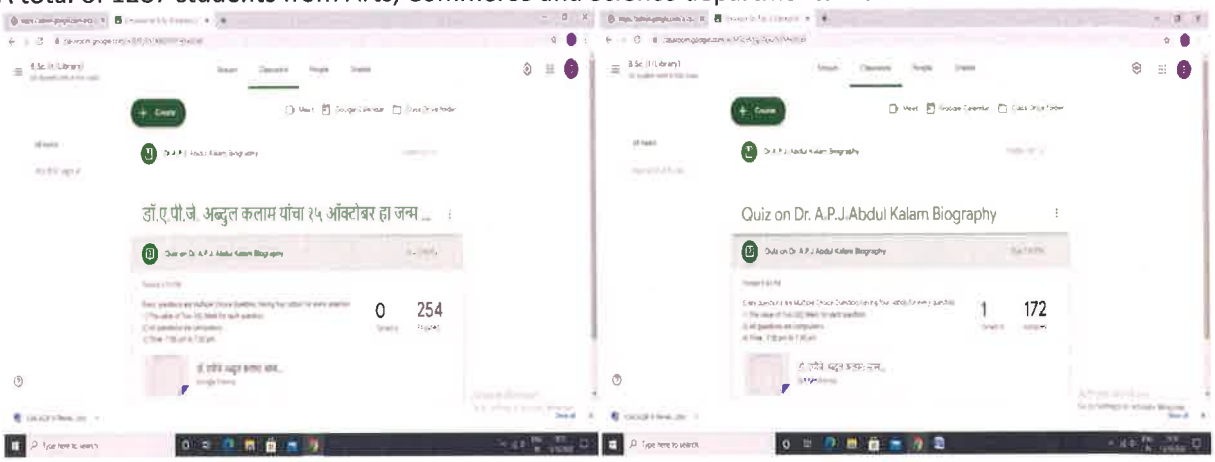
Reference Government Decision 1) Letter to the Directorate. Ushisan / 2020 / Reading Inspiration / Movie-1/6335 / 28-09-2020 and 2) Govt. Or Q-2020 / Tax-70 / Language-3 / 14-09-2020. Reference Letters in the Library and Knowledge Resource Center section A. P. J. In order to preserve the memory of Dr. A.P.J. Abdul Kalam, his birthday on 15th October as "Reading Inspiration Day" will be celebrated online on 10/10/2020 through Google Class Room. Online study material based on the biography of Dr. A.P.J. Abdul Kalam was provided.



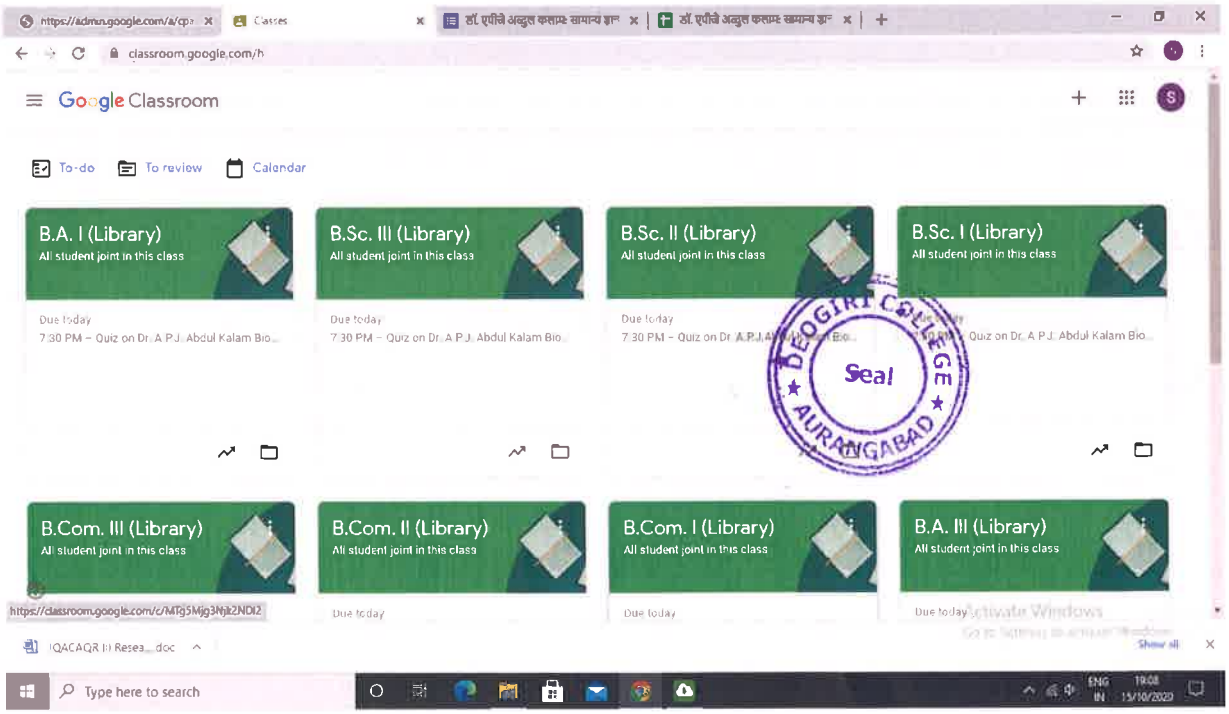
Principal
Deogiri College,
Aurangabad.

A total of 1287 students from Arts, Commerce and Science departments were added to this.



On 15/10/2020, a QUIZ of 50 marks was taken from the Google form of Google Class Room from 7:00 pm to 7:30 pm in view of the busy schedule of the students' exams. Considering the network problem of Vodafone and Idea Phone, 135 students responded.

In this 60 students of Science, 35 students of Commerce and 38 students of Arts responded to this quiz. Out of these 118 students got more than 50% marks while 17 students got less than 50% marks. The average pass result of this quiz is 87.% and the pass rate is 12%.



Principal
Deogiri College,
Aurangabad.

Motivational certificates were distributed online to all the students who passed with 50% proficiency.

M.S.P.Mandal's

DEOGIRI COLLEGE, AURANGABAD

Certificate of Appreciation

This Certificate is awarded to {{full name}} on the successful completion of Inspiration Day online Competition on the Occasion of Dr. A.P.J.Abdul Kalam Birth Anniversary held on 15 October, 2020.

Librarian
Dr. S.N.Dongare

Principal
Dr.S.N.Thore

To all the students who get 50% proficiency, Hon'ble Principal Dr. Shivajirao Thore was honored with the book "Memories of Chhatrapati Shahu" written by Nanasaheb Solunke on the background of Kovid, taking care that the guidelines of the Central Government and the State Government would not be violated.

While giving the book "Memories of Chhatrapati Shahu" written by Nanasaheb Salunke to the students, the principal of the college Dr. Shivajirao Thore and Librarian Dr. Sudesh Dongre

The senior library staff of the college worked hard to make this project a success.

Note :

The Department of Computer Science & IT would like to start following certificate courses in summer vacation of academic year 2018-19.

S.N.	Course Name	Duration (Hrs)	Course Fees (Rs)	Name of Trainer
1	3D Animation using MAYA	60	3000	Mr. Ajinkya Solunke
2	Graphic Design	90	3000	Mr. Amit Shinde
3	VB.NET and Database Design	40	2000	Mr, Vivek Nakhate
4	OOPs Using JAVA	60	2000	Mr. A. Pohnerkar
5	PHP Web Designing	60	2500	Mr. Ramesh Naik
6	*Web Designing using HTML JSCSS*	60	2000	Mr. Kuldeep Patil
7	Basics of Python	40	2000	Mr. Shriram Kathar
8	ASP.NET using C#	50	2000	Mr. Ritesh Magre

The remuneration to the trainer will be 50% of total amount of the respective course. Please give permission to start above mentioned courses and sanction the mentioned remuneration to the trainer

Thanking you.

MSP Mandal's

Deogiri College, Aurangabad

Department of Computer Science, I.T. & Animation

1. Title of the Course: OOP's using JAVA

2. Background of the course:

This course is designed for a beginner, who plans to become a Java developer and aims to get a first Java programming job, but strives to discover what skills employers want. This course is for them. This course will provide those skills. This course covers all the basic concepts, tools, functions and required topics that a Java developer usually requires during the development process of the application.

In this course, we will start with the installation and configuration of Java and Eclipse on various operating systems along with the following topics. If you have never programmed before, you already know the basic syntax or if you want to know the advanced functions of Java.

3. Brief information about the department:

The department of computer science, I.T. & Animation under the guidance of the head of the department Dr. S.N. Helambe runs under graduate and post graduate courses in B.Sc. I.T., BCA(sci.), B.Sc.(Opt. Comp. Sci.), B.Sc.(Comp. Sci.), M.Sc. (C.S.), M.Sc. (I.T.) as well as B.Voc.(Multimedia & Animation). Department also runs Add-On courses for skill development for the students.

4. Objectives:

- To learn why Java is useful for the design of desktop and web applications.
- To learn how to implement object-oriented designs with Java.
- To identify Java language components and how they work together in applications.
- To design and program stand-alone Java applications.
- To learn how to design a graphical user interface (GUI) with Java Swing.
- To understand how to use Java APIs for program development.
- To learn how to extend Java classes with inheritance and dynamic binding.
- To learn how to use exception handling in Java applications.
- To understand how to design GUI components with the Java Swing API.
- To learn Java generics and how to use the Java Collections API.
- To understand how to design applications with threads in Java.

DEOGIRI COLLEGE Seal AURANGABAD

Head
Department of Computer Science
Deogiri College Aurangabad.

Principal
Deogiri College,
Aurangabad.

5. Expected Outcomes:

- Learning Java Programming through simplistic steps from a professional trainer
- Understanding java class structure and method
- Learning the control flow statements to control the flow of execution of a program based on certain conditions
- Understanding of java operator working with binary, unary and assignment operator
- Understanding Java Arrays, Multidimensional Arrays
- Basic understanding of Strings
- Understanding object-oriented programming and classes
- Writing professional Java code

At the end of this course the students will be able to:

- Develop. Java Application which runs on every platform.
- Get job opportunity in IT industry
- Create Base for Adv. Java course

Hands on J2EE Course Exam

Marks – 50 M

Examinee Name - Mr. Bhushan S. Kulkarni

MCQ – 30 M

1) **How constructor can be used for a servlet?**
   a) Initialization
   b) Constructor function
   c) Initialization and Constructor function
   d) Setup() method

2) **Which of the following code is used to get an attribute in a HTTP Session object in servlets?**
   a) session.getAttribute(String name)
   b) session.alterAttribute(String name)
   c) session.updateAttribute(String name)
   d) session.setAttribute(String name)

3) **When destroy() method of a filter is called?**
   a) The destroy() method is called only once at the end of the life cycle of a filter
   b) The destroy() method is called after the filter has executed doFilter method
   c) The destroy() method is called only once at the begining of the life cycle of a filter
   d) The destroyer() method is called after the filter has executed

4) **The sendRedirect() method of HttpServletResponse interface can be used to redirect response to another resource, it may be servlet, jsp or html file.**
   a. True
   b. False

5) What type of servlets use these methods doGet(), doPost(),doHead, doDelete(), doTrace()?

a. Genereic Servlets
b. HttpServlets
c. All of the above
d. None of the above

6) Which cookie it is valid for single session only and it is removed each time when the user closes the browser?

a. Persistent cookie
b. Non-persistent cookie
c. All the above
d. None of the above

7) - Which of the following is not a directive?

A - include

B - page

C - taglib

D - useBean

8) - Which of the following is true about Initialization phase in JSP life cycle?

A - When a container loads a JSP it invokes the jspInit() method before servicing any requests.

B - Container invokes _jspService() method during Initialization phase.

C - Both of the above.

D - None of the above.

9) - What is the use of <c:set > tag?

A - It can save values to database.

B - It evaluates an expression and uses the results to set a value of a JavaBean.

C - It can be used to iterate list of elements.

D - None of the above.

10) **How many jsp implicit objects are there and these objects are created by the web container that are available to all the jsp pages?**

a. 8
b. 9
c. 10
d. 7

11) **Abbreviate the term POJO?**

a. Plain Old Java Object
b. Performance Old Java Object
c. Performance Optimize Java Object
d. None of the above

12) **Which validates the given string with the specified regular expression,it can be used in password, security key etc.?**

a. Regex Validation
b. Url Validation
c. Email Validation
d. RequiredString Validator

13) **Struts combines which of these in to a unified Framework?**

a. Java Servlets
b. Java Server pages
c. Custom tags and Message Resources
d. All mentioned above

14) **Which of the following methods hits database always?**

a) load()
b) loadDatabase()
c) getDatabase()
d) get()

15) **Which of the following is not a state of object in Hibernate?**

a) Attached()
b) Detached()
c) Persistent()
d) Transient()

Hands on Performance – 20 M

1) **Store and retrieve records from database using strut 2 frame work – 10M**
2) **Create login, logout and profile pages using JSP and demonstrate session on each page. – 10M**

Date : March 22, 2019

Note :

The Department of Computer Science & IT would like to start following certificate courses in **summer vacation** of academic year 2018-19.

S.N.	Course Name	Duration (Hrs)	Course Fees (Rs)	Name of Trainer
1	3D Animation using MAYA	60	3000	Mr. Ajinkya Solunke
2	Graphic Design	90	3000	Mr. Amit Shinde
3	VB.NET and Database Design	40	2000	Mr, Vivek Nakhate
4	OOPs Using JAVA	60	2000	Mr. A. Pohnerkar
5	PHP Web Designing	60	2500	Mr. Ramesh Naik
6	*Web Designing using HTML_JSCSS*	60	2000	Mr. Kuldeep Patil
7	Basics of Python	40	2000	Mr. Shriram Kathar
8	ASP.NET using C#	50	2000	Mr. Ritesh Magre

The remuneration to the trainer will be 50% of total amount of the respective course. Please give permission to start above mentioned courses and sanction the mentioned remuneration to the trainer

Thanking you.

Yours truly

(Dr. S.N.Helambe)
Head
Department of Computer Science
Deogiri College Aurangabad.

Principal
Deogiri College,
Aurangabad.

DEOGIRI COLLEGE * AURANGABAD * Seal

1. Title of the Course: Basics of Python Programming

2. Background of the course:

Python is an easy to learn, powerful programming language. It has efficient high-level data structures and a simple but effective approach to object-oriented programming. Python's elegant syntax and dynamic typing, together with its interpreted nature, make it an ideal language for scripting and rapid application development in many areas on most platforms

3. Brief information about the department:

The department of computer science, I.T. & Animation under the guidance of the head of the department Dr. S.N. Helambe runs under graduate and post graduate courses in B.Sc. I.T., BCA(sci.), B.Sc.(Opt. Comp. Sci.), B.Sc.(Comp. Sci.), M.Sc. (C.S.), M.Sc. (I.T.) as well as B.Voc.(Multimedia & Animation). Department also runs Add-On courses for skill development for the students.

4. Objectives:

- To understand why Python is a useful scripting language for developers.
- To learn how to design and program Python applications.
- To learn how to use lists, tuples, and dictionaries in Python programs.
- To learn how to identify Python object types.
- To learn how to use indexing and slicing to access data in Python programs.
- To define the structure and components of a Python program.
- To learn how to write loops and decision statements in Python.
- To learn how to write functions and pass arguments in Python.
- To learn how to build and package Python modules for reusability.
- To learn how to read and write files in Python.
- To learn how to design object oriented programs with Python classes.
- To learn how to use class inheritance in Python for reusability.
- To learn how to use exception handling in Python applications for error handling.

Head
Department of Computer Science
Deogiri College, Aurangabad.

DEOGIRI COLLEGE * Seal * AURANGABAD

Principal
Deogiri College,
Aurangabad.

5. Expected Outcomes:

- Master the fundamentals of writing Python scripts
- Learn core Python scripting elements such as variables and flow control structures
- Discover how to work with lists and sequence data
- Write Python functions to facilitate code reuse
- Use Python to read and write files
- Make their code robust by handling errors and exceptions properly
- Work with the Python standard library
- Explore Python's object-oriented features
- Search text using regular expressions

At the end of this course the students will be able to:

- Develop. Python Application using GUI which runs on every platform.
- Get job opportunity in IT industry
- Master the fundamentals of writing Python scripts
- develop the ability to write database applications in Python

6. Name of the course coordinator: 1) Mr. S. P. Kathar

Head

Syllabus Python Programming

Chapters	Detailed Contents	Hours
1	Introduction to computer programming languages.	12
2	Brief introduction to Python, Installation of python and Anaconda , History, Features, Setting up path, Working with Python, Basic Syntax.	
3	Data types, variables, mathematical operations and expressions, Use of python as an advanced scientific calculator with **math** and **cmath** modules	04
4	Logical operators, Control Flow (if-else, switch case, etc.) and Loops	14
5	Functions and Modules, Object Oriented Programing	
6	Dealing with strings, Lists, tuples, Dictionaries	
7	File management.	
8	GUI with Python	12
	Total	42

Python Test

25 Questions 50 Marks

Name Of Student : Rupali P. Mohorkar **Marks Obtained :** 38 /50

1. Select the reserved keyword in python
   (A) else (B) import (C) raise (D) All of these
2. Which of the following symbols are used for comments in Python?
   (A) // (B) " (C) /**/ (D) #
3. Are nested if-else are allowed in Python?
   (A) Yes (B) No
4. Which keyword is used to define methods in Python?
   (A) function (B) def (C) method (D) All of these
5. Which predefined Python function is used to find length of string?
   (A) length() (B) len() (C) strlen() (D) stringlength()
6. Python allows string slicing. What is the output of below code:

```
s='cppbuzzchicago'
print(s[3:5])
```

   (A) Pbuzz (B) buzzc (C) bu (D) None of these
7. Syntax of constructor in Python?
   (A) def __init__() (B) def _init_() (C) _init_() (D) All of these
8. How to find the last element of list in Python? Assume `bikes` is the name of list.
   (A) bikes[0] (B) bikes[-1] (C) bikes[lpos] (D) bikes[:-1]
9. If no value is return python returns
   (A) int (B) null (c) float (D) str
10. Which statement is correct....??
   (A) List is mutable && Tuple is immutable (B) List is immutable && Tuple is mutable
   (C) Both are Immutable (D) Both are Mutable.
11. Which one of the following is not a python's predefined data type?
   (A) Class (B) List (C) Dictionary (D) Tuple
12. Which of the following data type is used to store values in Key & Value format?
   (A) Class (B) List (C) Tuple (D) Dictionary
13. What is the output of the following?

```
x =123
foriin x:
print(i)
```

   a)1 2 3 b)123 c)error d) none of the mentioned
14. Python supports the creation of anonymous functions at runtime, using a construct called _____
   a) Lambda b) pi c) anonymous d) None of the mentioned

M.S.P. Mandala's Deogiri College
Department of Botany
Extension Activity in Collaboration with Government of Maharashtra's District Agricultural Soil Testing Department, Aurangabad.
Skill Oriented
Certificate course in Soil Testing.2019-20

Background for the Course: Department of botany Deogiri college conducts the training programmers for college students through the Certificate course in Soil Testing. A majority of students does not possess marketable skills which is an obstacle in getting decent employment and improving their economic condition. A large number of college drop outs do not have access to skill development for improving their employability. Soil Health Management or soil testing of crop fields is one of the most important involvements under certificate course.

Certificate course in Soil Testing/ Soil Health Management aims at promoting employability, awareness and establishment of soil testing labs in one of the components which are mainly located at district level. Therefore, village level soil testing projects will be established with the objective of employment generation for rural youth and to improve timelines in analysis of soil samples.

Brief information about the Department:Department of Botany is one of the oldest departments of this College, established in 1960. In Last few years, the department has achieved wide recognition in teaching undergraduate (Biodiversity Specialization) & post graduate (Biodiversity as Specialization) courses along with research and other activities. Besides the undergraduate and post graduate courses, the Department of Botany is the department undertaken many Research Projects completed and few UGC sanctioned projects ongoing. The Department is a recognized Research Center by Dr. Babasaheb Ambedkar Marathwada University, Aurangabad and is actively engaged in research work in Angiosperms, Taxonomy, Floristic, and Mycology. The college has taken initiatives towards social responsibility in reclamation of soil quality by starting Bio fertilizers and its production as self-financed course for the students from agricultural background. This Department is with well-equipped laboratory to facilitate student for research with different types of instruments.

Objectives of the course:

To conducts the training programmers for college students

Employment generation for rural youth.

To improve timeliness in analysis of soil samples.

Collaboration with Government Agriculture Soil testing Department.

Provide soil testing facilities to farmers at their door step.

To create awareness about soil health and organic farming in the College Students

DEOGIRI COLLEGE Seal AURANGABAD

Principal
Deogiri College,
Aurangabad.

Strategy: To achieve the above objectives, the following strategies will be adopted

Identification of beneficiary and Establishment of Soil Testing Projects.

To conducts the training programmers for college students with Government Agriculture Soil testing Department

The soil analysis process to be completed within one month of receipt of soil samples. Starting from March of the year to June month and October & November of the year.

Probable outcomes of the Course:

Students after certificate course can get employment.

Students can develop their one lab at district level.

Established their one consultancy (to improve soil quality)

Work as a technician in Soil testing lab.

Can work as a trainer in Agriculture department.

Commercialization of testing

Report 2019-20

Soil Testing Activity

Soil Testing Activity Report.2019-2020

The benefits of soil testing have been established through scientific research, extensive field demonstrations, and on the basis of actual fertilizer use by the farmers. Soil testing was initiated in the country in the beginning of planning era by setting up of 16 soil testing laboratories during 1955. Government of India has been supporting this programme during different plan periods to increase the soil analyzing capacity in the country. Planners and agriculturalists have recognized the utility of the service fully but it suffers due to inadequate scientific support in its execution.

To provide the soil testing laboratories with suitable technical literature on various aspects of soil testing, including testing methods and formulations of fertilizer recommendations etc.

Farmers of Marathwada region facing drought or insufficient irregular rain fall from last few years. Because of this we all facing economic crisis. To minimize effect of drought on the crops one can concentrate on soil fertility.

Soil analysis is a valuable tool for farm as it determines the inputs required for efficient and economic production. A proper soil test will help ensure the application of enough fertilizer to meet the requirements of the crop while taking advantage of the nutrients already present in the soil. It will also allow determining lime requirements and can be used to diagnose problem areas. Soil testing is also a requirement for farms that must complete a nutrient management plan.

Soil Testing is well recognized as a sound scientific tool to assess inherent power of soil to supply plant nutrients. The benefits of soil testing have been established through scientific research, it provide the soil testing laboratories with suitable technical literature on various aspects of soil testing, including testing methods and formulations of fertilizer recommendations etc.

Department of Botany has 80% students from rural area and 45% students are from farmer's family. To increase the awareness about soil health we started the soil analysis facility in the department. This activity runs with the collaboration of Government Agriculture soil testing institute.

Samples were collected from student's native place and analysis were done free of cost.

List of student's completed soil testing training during academic year 19-20

Linkage Document

The present document is being signed to establish linkage between this Institute and its Department of Botany with Govt of Maharashtra's District Soil Survey Soil Testing Office, Aurangabad, to carry out the skills and activities, training, association and collaboration. The following terms and specifications are being laid with mutual understanding.

General Terms:

- There is mutual cooperation and exchange of ideas and information related to the field of soil survey and testing between the institution and Govt of Maharashtra's District Soil Survey Soil Testing Office.
- Educational as well as professional knowledge is being exchanged.
- Interested students will be sending for training of soil testing in the Govt of Maharashtra's District Soil Survey Soil Testing Office.
- Trained students will help for various soil sample testing in Soil testing laboratory which will be beneficial for nearby farmers.
- There has been organization of student guidance by the soil testing officer in the institutions.

Specifications:

- Our District Soil Survey Soil Testing Office, Aurangabad has offered opportunities of training to the students of the Deogiri College for next three years.
- Students of Deogiri College will take active part in the soil testing process in the Govt of Maharashtra's District Soil Survey & Soil Testing office, Aurangabad.

It is in this way the present institute also reaffirms that the same cooperation will be extended in future between the two institutions. Hence this Linkage is established and certified between the above two Institutes.

Students for soil testing course 2018-19

Farmers of Marathwada region facing drought or insufficient irregular rain fall from last few years. Because of this we all facing economic crisis. To minimize effect of drought on the crops one can concentrate on soil fertility.

Soil analysis is a valuable tool for farm as it determines the inputs required for efficient and economic production. A proper soil test will help ensure the application of enough fertilizer to meet the requirements of the crop while taking advantage of the nutrients already present in the soil. It will also allow determining lime requirements and can be used to diagnose problem areas. Soil testing is also a requirement for farms that must complete a nutrient management plan.

Soil Testing is well recognized as a sound scientific tool to assess inherent power of soil to supply plant nutrients. The benefits of soil testing have been established through scientific research, it provide the soil testing laboratories with suitable technical literature on various aspects of soil testing, including testing methods and formulations of fertilizer recommendations etc.

Department of Botany has 80% students from rural area and 45% students are from farmer's family. To increase the awareness about soil health we started the soil analysis facility in the department. This activity runs with the collaboration of Government Agriculture soil testing institute.

Samples were collected from student's native place and analysis were done free of cost.

1. Title of the Course: Hands on Dot Net Programming

2. Background of the course:

The .Net framework is a software development platform developed by Microsoft for the first time in 2002. The framework was meant to create applications, which would run on the Windows Platform. The first version of the .Net framework was called 1.0. Since then, the .Net framework has come a long way and its current version is 4.7.1. The below write-up describes the .Net Framework and its scope in detail.

The .Net framework can be used to develop both - form-based and web-based applications. The framework also supports various programming languages such as Visual Basic and C#. In this chapter, you will learn some basics of the .Net framework.

Nowadays, the IT sector is a highly promising industry with diverse employment opportunities. DOT Net is among the core programming languages that drove the growth of the IT industry globally. DOT Net is a versatile programming tool used to develop software tools and products adaptable to various complicated and distinct system environments. The framework is the most suitable tool to develop software tools for Windows-based web and server applications.

3. Brief information about the department:

The department of computer science, I.T. & Animation under the guidance of the head of the department Dr. S.N. Helambe runs under graduate and post graduate courses in B.Sc. I.T., BCA(sci.), B.Sc.(Opt. Comp. Sci.), B.Sc.(Comp. Sci.), M.Sc. (C.S.), M.Sc. (I.T.) as well as B.Voc.(Multimedia & Animation). Department also runs Add-On courses for skill development for the students.

4. Objectives:

- Demonstrate the fundamental aspects of modern computer programming
- Design and implement .NET web application
- Write object-oriented logic using C# and Visual Basic (classes and libraries)
- Leverage Visual Studio for code generation, user interface design, testing, and debugging
- Build SQL Server databases and access them using the Entity Framework (EF)

5. Expected Outcomes:

Principal
Deogiri College,
Aurangabad.

DEOGIRI COLLEGE Seal AURANGABAD

Head
Department of Computer Science
Deogiri College Aurangabad.

- Understand code solutions and compile ASP. NET projects within the .NET framework.
- Demonstrate knowledge of object-oriented concepts Design user experience and functional requirements ASP.NET application.
- Construct classes, methods, and assessors, and instantiate objects.
- Understand and implement string manipulation, events and exception handling within .NET application environment.
- Create and manipulate GUI components in ASP.NET
- Design and Implement Windows Applications using Windows Forms, Control Library, Advanced UI Programming & Data Binding concepts
- Identify and resolve problems (debug /trouble shoot) in ASP.NET window based application
- Identify Industry defined problem and suggesting solution(s) using .NET application.

At the end of this course the students will be able to:

- Develop . NET Web Application
- Develop Back-end

6. Name of the course coordinator: 1) Mr. Amarnath Pohanerkar

Head
Department of Computer Science
Deogiri College Aurangabad.

Academic Year 2018-2019

Report on

"TCS Open Ignite 2018 "

An Employability initiative from Tata Consultancy Services (TCS), TCS is among the top three IT services companies worldwide. With over 4,00,000 employees and a market capitalization of over 100 billion dollars.

To help students acquire employability skills and to facilitate hiring, TCS operate an online learning portal call **Open Ignite** . Students pursuing BCA or BSc. (Math , Computer Science , Physics , Chemistry ,Applied Electronics, Statistics ,IT) who wish to join TCS are required to enroll in this portal and spend a few hours every week over the 3-4 months to prepare for hiring process.

93 students of the Department of Computer Science, IT & Animation, participated in the process by paying nominal fees and were trained. The students who participated benefited with the knowledge of the latest trends and technologies in the field of information technology which is useful for their career.

Enclosed:

1. Official Letter
2. Brochure of Program
3. List of participated students

TATA

Dear Professor,

21 August 2018

Sub: An employability initiative from Tata Consultancy Services (TCS)

As you may know, TCS is among the top three IT services companies worldwide. With over 4,00,000 employees and a market capitalization of over 100 billion dollars, TCS is India's oldest, best known and best performing technology company.

TCS recruits over 2,000 science graduates every year through the Ignite program. Over the last 12 years, nearly 10,000 science graduates have launched their IT careers through Ignite. They are all enjoying highly successful global careers.

To help students acquire employability skills and to facilitate hiring, we operate an online learning portal call Open Ignite (https://openseesame.tcs.com). Students pursuing BCA or BSc (Math, Comp Science, Physics, Chemistry, Applied Electronics, Statistics, IT) who wish to join TCS are required to enroll in this portal and spend a few hours every week over the next 3-4 months to prepare for our hiring process.

In addition, we also offer an online micro-degree called Software Engineering Industrial Practice. Details will be communicated soon.

We propose to hold our hiring drives in over 20 locations across India in January 2019. To maximize their chances of being invited candidates, students should

1. Register and actively participate in Open Ignite.
2. Download and use the Open Ignite android mobile app
3. Appear for the certification test for the Software Engineering Industrial Practice microdegree.

Please encourage all your final year science students to start their journey towards a TCS career. Please also display the enclosed poster on your notice board.

For any queries or assistance, you may please drop a mail chennai.ignite@tcs.com.

Thank you.

Induction program for TCS Pvt. Ltd

Interview Date: 5th and 6th Jan 2019

A two day training program for TCS was arranged for the final year students of BCA (Sci.) / B.Sc. C.S. / B.Sc. I.T. and B.Sc. (opt.) on 26th and 27th December 2018. On the first day a three hour schedule was planned which include subjects of Quantitative Aptitude conducted by Mr. Amarnath Pohanerkar from 11:00 AM to 12 :00 PM. Second session was conducted by Mr. Shriram Kathar on the topic of Data structures from 12:00PM to 01:00PM. The session was concluded by Mrs. Nandini Watwe on the topic of Communication Skills from 01:00PM to 02:00PM.

The next day session was started by Kuldeep Patil who discussed about Logical Reasoning from 11:00 AM to 12:00 PM. The second session was conducted by Mrs.Rupali Moharkar who conducted the lecture on Software Engineering from 12:00 PM to 01:00PM.The schedule was concluded by Mr. Girish Dudhgaokar who took a lecture on Computer Network.

Around 70 students benefitted from these two days training program.

Soil Testing Activity 2017-18:

Soil Testing is well recognized as a sound scientific tool to assess inherent power of soil to Supply plant nutrients. The benefits of soil testing have been established through scientific research, extensive field demonstrations, and on the basis of actual fertilizer use by the farmers. Soil testing was initiated in the country in the beginning of planning era by setting up of 16 soil testing laboratories during 1955. Government of India has been supportingthis programmeduring different plan periods to increase the soil analyzing capacity in the country. Planners and agriculturalists have recognized the utility of the service fully but it suffersdue to inadequate scientific support in its execution.

To provide the soil testing laboratories with suitable technical literature on various aspects ofsoil testing, including testing methods and formulations of fertilizer recommendations etc.,

Farmers of Marathwada region facing drought or insufficient irregular rain fall from last few years. Because of this we all facing economic crisis. To minimize effect of drought on the crops one can concentrate on soil fertility.

Soil analysis is a valuable tool for farm as it determines the inputs required for efficient and economic production. A proper soil test will help ensure the application of enough fertilizer to meet the requirements of the crop while taking advantage of the nutrients already present in the soil. It will also allow determining lime requirements and can be used to diagnose problem areas. Soil testing is also a requirement for farms that must complete a nutrient management plan.

Soil Testing is well recognized as a sound scientific tool to assess inherent power of soil to supply plant nutrients. The benefits of soil testing have been established through scientific research, it provide the soil testing laboratories with suitable technical literature on various aspects of soil testing, including testing methods and formulations of fertilizer recommendations etc.

Department of Botany has 80% students from rural area and 45% students are from farmer's family. To increase the awareness about soil health we started the soil analysis facility in the department. This activity runs with the collaboration of Government Agriculture soil testing institute.

Samples were collected from student's native place and analysis were done free of cost. Following students completed their soil testing training during academic year 2017-18

Sub: Request for soil testing data of Aurangabad District for research

Respected Sir,

Our area of research is plant pathology. For further conclusions we need to compare the physiochemical characters of soil with pathogens occurred. So we need the data of last two years about physiochemical characters of soil from Aurangabad district. So please provide the data for last two years. This will help us to conclude.

Thanking You

1. Title of the Course: SQL Server DBMS

2. Background of the course:

Databases form the backbone of all major applications today – tightly or loosely coupled, intranet or internet based, financial, social, administrative, and so on. Structured Database Management Systems (DBMS) based on relational and other models have long formed the basis for such databases. Consequently, Oracle, Microsoft SQL Server, Sybase etc. have emerged as leading commercial systems while MySQL, PostgreSQL etc. lead in open source and free domain.

While DBMS's differ in the details, they share a common set of models, design paradigms and a Structured Query Language (SQL). In this background the course examines data structures, file organizations, concepts and principles of DBMS's, data analysis, database design, data modeling, database management, data & query optimization, and database implementation. More specifically, the course introduces relational data models; entity-relationship modeling, SQL, data normalization, and database design. Further it introduces query coding practices using MySQL (or any other open system) through various assignments. Design of simple multi-tier client / server architectures based and Web-based database applications is also introduced.

3. Brief information about the department:

The department of computer science, I.T. & Animation under the guidance of the head of the department Dr. S.N. Helambe runs under graduate and post graduate courses in B.Sc. I.T., BCA(sci.), B.Sc.(Opt. Comp. Sci.), B.Sc.(Comp. Sci.), M.Sc. (C.S.), M.Sc. (I.T.) as well as B.Voc.(Multimedia & Animation). Department also runs Add-On courses for skill development for the students.

4. Objectives:

- Define RDBMS and three normalization forms
- Using DDL Statements to Create and Manage Tables
- Manipulating Data Using DML
- Retrieving Data Using the SQL Select Statement
- Restricting and Sorting Data
- Displaying Data from Multiple Tables

Principal
Deogiri College,
Aurangabad.

Head
Department of Computer Science
Deogiri College Aurangabad.

DEOGIRI COLLEGE Seal AURANGABAD

- Using the built-in functions.

5. Expected Outcomes:

- Learn Database models
- Overview of SQL Server Management Studio and Transact-SQL language
- Master writing simple and complex queries that retrieve data from the database
- Calculate information across result sets using aggregate queries (sum, min, max, avg, etc.)
- Insert, update, and delete data
- Retrieve data from tables
- Joins
- Sub-queries
- Working with Data Types
- Procedure and Functions
- Understand the different Views
- Working with Triggers
- Design a database
- Maintain databases, tables, and sequences with SQL statements
- Create and manage views

At the end of this course the students will be able to:

- This SQL Server training teaches all the **Transact-SQL** skills they need to create database objects like Tables, Views, Stored procedures & Functions and triggers in SQL Server.
- Gives idea about writing Queries & Sub-queries, working with Joins, etc.

6. Name of the course coordinator: 1) Mr.R. A. Magre

"SQL Server DBMS"

Test Paper

Marks: 50 **Time: 1 Hr**

1. SQL is _____
A) A programming language B) Operating System
C) Data Language D) DBMS

2. Which of the following do you need to consider when you make a table in SQL?
A) Data type B) Primary Key
C) Default Value D) All

3. Which command modify the database object?
A) modify B) alter
C) update D) update for all

4. Which command is used to delete a table n the database?
A) del B) remove C) delete D) drop

5. What is the default behavior of cascading referential integrity?
A) No Action B) Cascade
C) Set Null D) Set Default

6. Which of the following statement is used to reset identity column?
A) dbcc shrinkfile B) dbcc incriment
C) dbcc checkident D) dbcc setdefault

7. Which command retrieves the last generated Id of identity column from the same session and same scope?
A) scope_identity() B) @@identity
C) ident_current D) All

8. Which command is used in SQL to add row in tabase?
A) .dd B) create C) insert D) make

9. Which of the following keyword is used with wildcard charecter?
A) equal B) in C) like D) between

10. Which classifier is included to remove duplicate rows from the results of an SQL statement?
A) only B) unique C) distinct D) single

11. Which one of the following sort rows in SQL?
A) sort by B) align by
C) order by D) group by

12. Which of the following join returns matching rows from both the table?
A) left join B) right join
C) cross join D) inner join

13. Which is the correct difference between union and union all?
A) union removes duplicate records union all does not
B) union all is slower than union
C) union combines rows union all combines columns
D) All

14. What are the advantages of using stored procedure?
A) Execution plan retension
B) Reduce network traffic
C) Code is small
D) Both A and B

15. Which function returns a starting position of the specified expression in a character string?
A) left() B) right() C) charindex() D) replicate()

16. Which function returns a current date of system?
A) readdate() B) getdate() C) date() D) today()

17. What is the function which returns only single value?
A) scalar function()
B) inline function()
C) inline table valued function
D) multistatement table valued fucntion

18. Which of the following is a view?
A) a virtual table that can be accessed via SQL command
B) a virtual table that can not be accessed via SQL command
C) a base table that can be accessed via SQL command
D) a base table that can not be accessed via SQL command

19. Which of the following trigger are automatically fired after the execution of insert, update or delete command?
A) instead of trigger B) log on trigger
C) for trigger D) all

Date : March 10, 2017

Note :

The department of Computer Science would like to start certificate courses during summer vacation (April & May 2017). The courses details are as follows.

Sr no	Course name	Duration	Capacity	Fees (Rs)	Name of Trainer
1	Web designing using Bootstrap.	90 hours	40 students	2000	Ritesh A.Magre
2	Sql server DBMS.	90 hours	40 students	2000	Ritesh A.Magre
3	Basic Android for mobile App.	90 hours	40 students	3000	Shriram P.Kathar
4	CPP programming.	45 hours	40 students	1000	Shriram P.Kathar
5	C-Programming	45 hours	40 students	1000	Anand D.Batsar
6	Photo Editing using Photoshop	90 hours	40 students	2000	Amit Shinde
7	Video Editing using Premiere Pro	90 hours	40 students	3000	Abhijeet Manke

Please give permission to announce and start above mentioned courses.

Dr. S.N. Helambe

HOD, Dept. of CSIT

Principal
Deogiri College,
Aurangabad.

DEOGIRI COLLEGE ★ Seal ★ AURANGABAD

1. Title of the Course: Web Designing using Bootstrap

2. Background of the course:

This mobile-first responsive design course teaches students how to use the Bootstrap 3 CSS framework to build websites with fluid and adaptive grid layouts.

Unlike our primary responsive web design course this Bootstrap3 course is focused entirely on the practicalities of designing websites using this one tool, i.e. it makes little attempt to teach the fundamental responsive web design skills that the other course does.

As such, this course is oriented towards students whose primary purpose is just to get a mobile-first responsive design up and running quickly and immediately. Such students may already have the generic responsive skills or they may plan to acquire them later.

Pre requisite:

Delegates should have completed the following Web Design Academy courses, or be able to demonstrate equivalent skills and learning:

- CSS Fundamentals (CSS-03)
- CSS3 Essentials (CSS3-01)

We assume that anyone with the skills and knowledge taught in those courses will also have a good conceptual understanding of HTML and enough knowledge of HTML5 to pick up the basics of Bootstrap3 from the introductory module of this course

3. Brief information about the department:

The department of computer science, I.T. & Animation under the guidance of the head of the department Dr. S.N. Helambe runs under graduate and post graduate courses in B.Sc. I.T., BCA(sci.), B.Sc.(Opt. Comp. Sci.), B.Sc.(Comp. Sci.), M.Sc. (C.S.), M.Sc. (I.T.) as well as B.Voc.(Multimedia & Animation). Department also runs Add-On courses for skill development for the students.

Principal
Deogiri College,
Aurangabad.

DEOGIRI COLLEGE ★ Seal ★ AURANGABAD

Head
Department of Computer Science
Deogiri College Aurangabad.

4. Objectives:

- Build a mobile-first website using Bootstrap
- Build responsive designs with Bootstrap
- Design layouts adhering to a baseline grid
- Design layouts adhering to a fluid grid
- Understand how the HTML, CSS and JavaScript components of Bootstrap work
- Customise a Bootstrap installation
- Optimise a Bootstrap design for target device features
- Create responsive images and graphics

5. Expected Outcomes:

- Understand code solutions and compile Web projects.
- Demonstrate knowledge of object-oriented concepts Design user experience and functional requirements Bootstrap.
- Construct classes, methods, and assessors, and instantiate objects.
- Understand and implement string manipulation, events and exception handling
- Create and manipulate GUI components
- Identify and resolve problems (debug /trouble shoot) in web based application
- Identify Industry defined problem and suggesting solution(s) using .Bootstrap.

At the end of this course the students will be able to:

- Develop. Attractive Web Application which runs on every web platform.
- Build a mobile-first website using Bootstrap
- Build responsive designs with Bootstrap

6. Name of the course coordinator: 1) Mr. R. A. Magre

Principal
Deogiri College,
Aurangabad.

"Web Design Using Bootstrap"

Test Paper

Marks: 50 **Time: 1 Hr**

1. Bootstrap framework is developed by_____
A) Facebook B) Twitter C) Google D) Linked in

2. The Bootstrap grid system is based on how many columns?
A) 12 B) 6 C) 3 D) 9

3. Which class shapes an image to a circle?
A) .img-round B) .img-rounded
C) .img-circle D) .img-thumbnail

4. Which class is useful for showing the content by device via media query for small device?
.visible-sm B) .visible- xs C) visible-md D) All

5. Which button class is used to create a large button?
A) .btn-lg B) .btn-l C) .btn-large D) .btn-xl

6. Which class is used to set the alignment of blockquotes to the right?
A) .blockquote B) .reverse
C) .blockquote-reverse D) None

7. How can you insert a search icon?
A)
B)
C)
D)

8. Which class is used to create a badge?
A) .badge B) .label C) .flag D) .tag

. Which class is used to create a basic list group?
A) .list-group B) .btn-group C) .group D) .group-list

10. Which class adds a heading to a panel?
A) .panel-head B) .panel-heading
C) .panel-footer D) .panel-header

11. Which of the following is not a contextual button class?
A) .btn-default B) .btn-primary
C) .btn-warn D) .btn-info

12. Which class is used to create a black navigation bar?
A) .navbar-default B) .navbar-dark
C) .navbar-inverse D) .navbar-black

13. Which of the following is default form layout in bootstrap?
A) Vertical B) Horizontal C) Inline D) None

14. Which plugin is used to cycle through elements like slide show?
A) carousel B) scrollspy C) slide show D) Orbit

15. Which plugin is used to create a modal window?
A) window B) popup C) dilog D) modal

16. Which class gives the content inside it the sunken effect?
A) .well B) .jumbotron C) .panel D) .sunken

17. which class creates a striped progress bar?
A) .progress-bar-striped B) .striped-progress
C) .progress-striped D) .progressbar-striped

18. Which class is used to hide the toggle image gallery?
A) .hide B) .close C) .collapse D) .hidden

19. Which class is used to animate the element?
A) .animate B) .animation C) .fade D) .anm

20. Which class is used to create a alert box?
A) .box B) .msg C) .alert D) .alertbox

21. Which plugin is used to automatically highlights the navigation link based on the scroll position?
A) srollspy B) tooltip C) highlight D) hlt

22. Which plugin is used to pin the elements when they are scrolled beyond a certain point?
A) pin B) fixed C) pause D) affix

23. Which class formats a input elements of a form?
A) .control B) .form-control
C) .form-element D) .formcontrol

24. Which of the following is advantage of using bootstrap?
A) Responsive B) Consistency
C) Customizable D) All

25. How many folders bootstrap file consist?
A) 1 B) 2 C) 3 D) 4

Short Term Certificate Course C-Programming

Sr. No	Topic	Duration
1	Introduction to C ➢ Importance of C ➢ What is C	2
2	Let us start with C ➢ Tokens ➢ Constants and variables ➢ Rules for constructing variables ➢ Key words ➢ Data types ➢ Variable declaration	2
3	Operators ➢ Are thematic operator ➢ Relational operator ➢ Assignment operator ➢ Logical operator	2
4	➢ Increment and decrement operator ➢ Conditional operator ➢ Bitwise operator ➢ Special operator	2
5	Structure of C language program ➢ Comment line ➢ Header file ➢ Declaration statements ➢ Main function ➢ First c program	3
6	➢ Input and output operations. ➢ Program that demonstrate input and output operations. ➢ Compilation and execution	3
7	Decision control structure ➢ The if statement ➢ The if-else statement ➢ Nested if-else	3
8	➢ Else-if ladder ➢ Decision using switch	3
9	The loop control structure ➢ While loop ➢ Do while loop	3
10	For loop	2
11	Array ➢ One dimensional array ➢ Multi dimensional	2
12	Function	2
13	Pointer	2
14	➢ Union ➢ structure	2
15	File handling	2
16	Graphics in C	2

Vacation course 2017 Test
Paper Title: - : C Programing
Time: 45min

Date: 23/05/2017 Marks: 50

Q1) Which of the following is not valid variable name declaration.

1) int _a3;
2) int _3a;
3) int a3;
4) int 3a;

Q2) which of the following is true for variable names in c?

1) They can contain alphanumeric characters as well as special characters.
2) It is not error to declare a variable to be one of the keyword (like goto, static).
3) Variable name cannot start with a digit.
4) Variables can be declare without data type.

Q3) C program can be converted into machine language with the help of_____.

1. An editor.
2. An compiler
3. An operating system
4. None of these

Q4) C language recognizes _____ number of keywords.

1) 30
2) 32
3) 24
4) 36

Q5) which of the following is not a reserved keyword for C?

1) auto
2) case
3) main
4) register

Principal
Deogiri College,
Aurangabad.

Q6) which is the only function, all C programs must contain.

1) clrscr();
2) cetch();
3) crintf();
4) main();

DEOGIRI COLLEGE * AURANGABAD * Seal

Head
Department of Computer Science
Deogiri College Aurangabad.

Q16)which function is use to find the current pointer position in a file.

1) fseek()
2) fopen()
3) ftell()
4) Putc()

Q17) fseek() function reuires_____ arguments.

1) Two
2) Three
3) four
4) None

Q18)Point out the wrong statement regarding function.

1) Function can have return type and argument list.
2) Functions can have return type and cannot have definition.
3) Function can have return type and cannot have arguments.
4) Function cannot have return type and can have arguments.

Q19) while loop executes until_____

1) Condition is true
2) Condition is false
3) Execution is over
4) Compilation is over

Q20) choose the correct syntax for rectangle() function.

1) Rectangle(start x, start y, end x, end y);
2) Rectangle(x, y ,radius);
3) Rectangle (left, top, right, bottom);
4) Rectangle(x, y, start angle, end angle, radius);

Q21) what will be the output of following program.

```
Void main
{
        int x=1;
        do
        {
                printf("%d",x);
        }
        while(x++<=1);
```

Short Term Certificate Course CPP

Sr. No	Topic	Duration
1	C++ Overview ✓ C++ Characteristics ✓ Object-Oriented Terminology ✓ Polymorphism ✓ Object-Oriented Paradigm	3
2	Functions and Variables ✓ Functions: Declaration and Definition ✓ Variables: Definition, Declaration, and Scope ✓ Variables: Dynamic Creation and Derived Data ✓ Arrays and Strings in C++	6
3	Classes in C++ ✓ Defining Classes in C++ ✓ Classes and Encapsulation ✓ Member Functions ✓ Instantiating and Using Classes ✓ Using Constructors ✓ Multiple Constructors and Initialization Lists ✓ Using Destructors to Destroy Instances ✓ Friendship	6
4	Operator Overloading ✓ Operator Overloading ✓ Working with Overloaded Operator Methods	2
5	Initialization and Assignment ✓ Initialization vs. Assignment ✓ The Copy Constructor ✓ Assigning Values ✓ Specialized Constructors and Methods ✓ Constant and Static Class Members	2
6	Inheritance ✓ Overview of Inheritance ✓ Defining Base and Derived Classes ✓ Constructor and Destructor Calls ✓ Overview of Polymorphism	5
7	Input and Output in C++ Programs ✓ Standard Streams ✓ Manipulators ✓ Unformatted Input and Output ✓ File Input and Output	6
8	Exceptions ✓ Exceptions ✓ Inheritance and Exceptions ✓ Exception Hierarchies ✓ Inside an Exception Handler	4
9	Templates ✓ Template Overview ✓ Customizing a Templated Method ✓ Standard Template Library Containers	6

Summer Vacation Certificate Course 2017

CPP Exam Paper

1 . How many types of polymorphisms are supported by C++?

A. 1
B. 2
C. 3
D. 4

2 . Which of the following statement is correct?

A. A constructor is called at the time of declaration of an object.
B. A constructor is called at the time of use of an object.
C. A constructor is called at the time of declaration of a class.
D. A constructor is called at the time of use of a class.

3 . constructor that accepts _____ parameters is called the default constructor.

A. 1
B. 2
C. 3
D. 0

4 . Destructor has the same name as the constructor and it is preceded by _____ .

A. !
B. ?
C. ~
D. $

5 . Which of the following statement is correct?

A. Constructor has the same name as that of the class.
B. Destructor has the same name as that of the class with a tilde symbol at the beginning.
C. Destructor has the same name as the first member function of the class.

6 . Which of the following statement is correct?

A. Overloaded functions can have at most one default argument.
B. An overloaded function cannot have default argument.
C. All arguments of an overloaded function can be default.
D. A function if overloaded more than once cannot have default argument.

7 . Which of the following function declaration is/are incorrect?

A. int Sum(int a, int b = 2, int c = 3);
B. int Sum(int a = 5, int b);
C. int Sum(int a = 0, int b, int c = 3);
D. Both B and C are incorrect.

8 . What is the only function all C++ programs must contain?

A. start()
B. system()
C. main()
D. program()

9 . _____ are used to format the data display in CPP?

A. Iterators
B. Punctuators
C. Manipulators
D. Allocators

10 . _____ header file is used for manipulators.

A. <iomanipulator.h>
B. <stdiomanip.h>
C. <stdmanip.h>
D. <iomanip.h>

11 . The code of statements which may cause abnormal termination of the program should be written under_____ block

A. try
B. catch
C. finally
D. none of these

12 . If a class contains static variable, then every object of the class has its copy of static variable.

A. TRUE
B. FALSE

13 . Default value of static variable

A. 1
B. 0
C. garbage value
D. compiler dependent

14 . Scope resolution operator is used_____

A. . to resolve the scope of global variables only
B. . to resolve the scope of functions of the classes only
C. to resolve scope of global variables as well as functions of the classes

Department of Computer Science
Deogiri College Aurangabad.
Dr. S.N.Helambe
HOD, Dept. of CSIT

MSP Mandal's

Deogiri College, Aurangabad

Department of Computer Science, I.T. & Animation

1. Title of the Course: Basics of Android

2. Background of the course:

This course covers the fundamentals of Android programming using the Android SDK. Topics discussed in this course include: fundamental concepts in Android programming - activities and intents, designing user interface using views, data persistence, content providers, messaging and networking, location-based services, and developing android services.

3. Brief information about the department:

The department of computer science, I.T. & Animation under the guidance of the head of the department Dr. S.N. Helambe runs under graduate and post graduate courses in B.Sc. I.T., BCA(sci.), B.Sc.(Opt. Comp. Sci.), B.Sc.(Comp. Sci.), M.Sc. (C.S.), M.Sc. (I.T.) as well as B.Voc.(Multimedia & Animation). Department also runs Add-On courses for skill development for the students.

4. Objectives:

Android Application Development course is designed to quickly get you up to speed with writing apps for Android devices. The student will learn the basics of Android platform and get to understand the application lifecycle

5. Expected Outcomes:

- Demonstrate their understanding of the fundamentals of Android operatingsystems
- Demonstrate their skills of using Android software development tools
- Demonstrate their ability to develop software with reasonable complexity onmobile platform
- Demonstrate their ability to deploy software to mobile devices
- Demonstrate their ability to debug programs running on mobile devices

At the end of this course the students will be able to:

By the end of the course, student will be able to write simple GUI applications, use built-in widgets and components, work with the database to store data locally, and much more.

6. Name of the course coordinator: 1) Mr.S. P. Kathar

Answer Key

Summer Vacation Certificate Course 2017
Android Exam Paper

1 . What is an activity in Android?
- A. Activity performs the actions on the screen
- B. Manage the Application Content
- C. Screen UI
- D. None of the Above

2 . What is Broadcast Receiver in android?
- A. It will react on broadcast announcemrnt
- B. it will do background functionalities as services
- C. It will pass the data between Activities
- D. None of the Above

3 . What are the Main Components in Android
- A. Activities
- B. Services
- C. Both a & b
- D. None of the Above

4 . Layouts in android?
- A. Frame Layout
- B. Linear Layout
- C. Relative Layout
- D. All Of the Above

5 . Once installed on device , each Android Application lives in
- A. Device Memory
- B. External Memory
- C. Security Sandbox
- D. None of the Above

6 . Find odd word
- A. PX B . DP
- C DIP D. KM

7 . All Images present in which folder
- A. drawable
- B. layout
- C. Values
- D. bin

8 . Style and Theme file present in which folder?
- A. Values B. res
- C Layout D . None of the Above

9 . Android supports Which menu
- A. Option Menu
- B. Context Menu
- C. Pop Up Menu
- D. All Of the Above

10 . Services are visible UI Component
- A. TRUE B. FALSE

11 . Which company developed android?
- A. Apple B. Google
- C Android INC. D. Nokia

12 . We can Pass Data in Intent
- A. TRUE B. FALSE

13 . Although most people's first thought when they think of Android is Google, Andr oid is not actually owned by Google. Who owns the Android platform?
- A. Google
- B. Open HandsertAlliance
- C. Motorola
- D. Oracle

14 . Specify the directory where the xml layout files are strored
- A. res/values
- B. res
- C. res/layout
- D. None of the Above

15 . Every Android Application m,ust Have AndroidManifest.xml File in directory
- A. TRUE
- B. FALSE

16 . android:maxSdk in AndroidMAnifest is not recommended
- A. TRUE
- B. FALSE

17 . All the menu xml files are stored under
- A. res/values
- B. res/menu
- C. menu
- D. res

18 . Important property of Linear Layout
- A. orientation
- B. Layout_width
- C. Layout_height
- D. All Of the Above

19 . Select a method to access a view element of layout resource in activity
- A. onCreate()
- B. findViewById()
- C. Both a & b
- D. None of the Above

20 . To accept Text in Android we use
- A. EditTest
- B. TextView
- C. Both a & b
- D. None of the Above

21 . AVD stands for
- A. Android virtual display
- B. Android virtual device
- C. Active virtual device
- D. None of the Above

22 . Service are started by which method
- A. startService()
- B. serviceStart()
- C. Both a & b
- D. None of the Above

23 . BroadcastReceiver are started By which method
- A. onReceive()
- B. start()
- C. readyBroadCast(()
- D. All Of the Above

24 . If we apply style file at activity level it is consider
- A. style
- B. theme
- C. Both a & b
- D. None of the Above

25 . Which is the latest version of Android
- A. Marshmellow
- B. Nougat
- C. LollyPop
- D. KitKat

Note :

The department of Computer Science would like to start certificate courses during summer vacation (April & May 2017). The courses details are as follows.

Sr no	Course name	Duration	Capacity	Fees (Rs)	Name of Trainer
1	Web designing using Bootstrap.	90 hours	40 students	2000	Ritesh A.Magre
2	Sql server DBMS.	90 hours	40 students	2000	Ritesh A.Magre
3	Basic Android for mobile App.	90 hours	40 students	3000	Shriram P.Kathar
4	CPP programming.	45 hours	40 students	1000	Shriram P.Kathar
5	C-Programming	45 hours	40 students	1000	Anand D.Batsar
6	Photo Editing using Photoshop	90 hours	40 students	2000	Amit Shinde
7	Video Editing using Premiere Pro	90 hours	40 students	3000	Abhijeet Manke

Please give permission to announce and start above mentioned courses.

Department of Computer Science, I.T. & Animation

1. Title of the Course: Certificate course in Photo Editing using Photoshop

2. Background of the course:

Adobe Photoshop is a raster graphics editor developed and published by Adobe Inc. for Windows and macOS. It was originally created in 1988 by Thomas and John Knoll. Since then, the software has become the industry standard not only in raster graphics editing, but in digital art as a whole.

3. Brief information about the department:

The department of computer science, I.T. & Animation under the guidance of the head of the department Dr. S.N. Helambe runs under graduate and post graduate courses in B.Sc. I.T., BCA(sci.), B.Sc.(Opt. Comp. Sci.), B.Sc.(Comp. Sci.), M.Sc. (C.S.), M.Sc. (I.T.) as well as B.Voc.(Multimedia & Animation). Department also runs Add-On courses for skill development for the students.

4. Objectives:

1. Demonstrate knowledge of image resolution, image size, and image file format for web, video, and print.
2. Demonstrate knowledge of design principles, elements, and image composition. Demonstrate knowledge of typography.
3. Demonstrate knowledge of color correction using Photoshop.

5. Expected Outcomes:

Students will learn the basic tools used in Adobe Photoshop to create and edit images. Students will learn how to optimize images and save images in proper file formats. Students will learn color selection and conversion as it relates to both Web and business publications.

At the end of this course the students will be able to:

- . Graphics Designing
- Logo Designing
- Image Editing & Mixing

Academic Year 2016-2017

Syllabus ForHands on Photo Editing using Photoshop Certificate Course

1. Photoshop Basics **04Hrs.**

A powerful graphic editing program that allows you to create and manipulate images for print, the web, and other media. Photoshop is almost limitless in the ability to manipulate and edit images, but don't let that scare you! We have created this guide to help you learn and take advantage of the many features of this program.

2. The Toolbox: **04 Hrs.**

A Visual Guide There is a whole range of 'hidden' tools in the Adobe Photoshop toolbox. Here's a nifty little guide to help familiarize yourself with where they're located

3. Starting a new document **07 Hrs.**

When you launch Adobe Photoshop, you can start a document by selecting File>New. You will be presented with a dialogue box asking you to specify the size and various other parameters.

4. Working with layers **06Hrs.**

One of the most useful aspects of Photoshop is its ability to work with multiple layers. That is, you can have multiple images stacked on top of each other. Here's an example of what your document might look like if you're working with three different layers

5. The Layers Palette **06Hrs.**

When working with layers, you will need to use the Layers Palette. This palette allows you to reorder layers, change their opacity, create new layers, hide layers, link layers and delete layers

6. Selection **03Hrs.**

If you're going to do sophisticated work in Adobe Photoshop, you need to understand selection. Your ability to produce sophisticated imagery hinges on your ability to use the selection tools. If you wish to select parts of the image, you can use the following tools in the toolboxStructuresandUnions

7. The Edit menu **06Hrs.**

The Edit menu contains a range of powerful ways to manipulate the image you're working with. You'll find yourself using the features under this menu quite frequently no matter what sort of image you're creating?

8. The image menu **06Hrs.**

The Image menu is where you can adjust the colour and size of your image. There is a number of fundamental, frequently used image manipulation functions under this menu.

9. The Filter menu04 Hrs.

The Filter Menu contains a range of powerful ways to manipulate your images. Examples of some of these filters have been shown below. When creating advanced imagery in Photoshop, you will need to have a good understanding of these filters.

1. Title of the Course: Dot Net Programming

2. Background of the course:

The .Net framework is a software development platform developed by Microsoft for the first time in 2002. The framework was meant to create applications, which would run on the Windows Platform. The first version of the .Net framework was called 1.0. Since then, the .Net framework has come a long way and its current version is 4.7.1. The below write-up describes the .Net Framework and its scope in detail.

The .Net framework can be used to develop both - form-based and web-based applications. The framework also supports various programming languages such as Visual Basic and C#. In this chapter, you will learn some basics of the .Net framework.

Nowadays, the IT sector is a highly promising industry with diverse employment opportunities. DOT Net is among the core programming languages that drove the growth of the IT industry globally. DOT Net is a versatile programming tool used to develop software tools and products adaptable to various complicated and distinct system environments. The framework is the most suitable tool to develop software tools for Windows-based web and server applications.

3. Brief information about the department:

The department of computer science, I.T. & Animation under the guidance of the head of the department Dr. S.N. Helambe runs under graduate and post graduate courses in B.Sc. I.T., BCA(sci.), B.Sc.(Opt. Comp. Sci.), B.Sc.(Comp. Sci.), M.Sc. (C.S.), M.Sc. (I.T.) as well as B.Voc.(Multimedia & Animation). Department also runs Add-On courses for skill development for the students.

4. Objectives:

- Demonstrate the fundamental aspects of modern computer programming
- Design and implement .NET web application
- Write object-oriented logic using C# and Visual Basic (classes and libraries)
- Leverage Visual Studio for code generation, user interface design, testing, and debugging
- Build SQL Server databases and access them using the Entity Framework (EF)

Deogiri College,
Aurangabad.

- Understand code solutions and compile ASP. NET projects within the .NET framework.
- Demonstrate knowledge of object-oriented concepts Design user experience and functional requirements ASP.NET application.
- Construct classes, methods, and assessors, and instantiate objects.
- Understand and implement string manipulation, events and exception handling within .NET application environment.
- Create and manipulate GUI components in ASP.NET
- Design and Implement Windows Applications using Windows Forms, Control Library, Advanced UI Programming & Data Binding concepts
- Identify and resolve problems (debug /trouble shoot) in ASP.NET window based application
- Identify Industry defined problem and suggesting solution(s) using .NET application.

At the end of this course the students will be able to:

- Develop . NET Web Application
- Develop Back-end

Note

Respected Sir,

The department of Computer Science & I.T. willing to start following Certificate Courses from **20 July 2017** (Course Duration 3 Months).

S.N.	Course	Course Fee	Name of Trainer
1	Certificate Course of Dot Net Programming	2000 Rs	Ritesh Magre
2	Certificate Course of JAVA Programming	2000 Rs	Shriram Kathar
3	Certificate Course of Web Design using HTML, CSS, Javascript	1500 Rs	Anand Batsar

Kindly grant a permission to start the course so as to communicate the same to the students to encourage taking up this program for their career development.

With sincere thanks and regards.

MSP Mandal's

Deogiri College, Aurangabad

Department of Computer Science, I.T. & Animation

1. Title of the Course: Java Programming

2. Background of the course:

This course is designed for a beginner, who plans to become a Java developer and aims to get a first Java programming job, but strives to discover what skills employers want. This course is for them. This course will provide those skills. This course covers all the basic concepts, tools, functions and required topics that a Java developer usually requires during the development process of the application.

In this course, we will start with the installation and configuration of Java and Eclipse on various operating systems along with the following topics. If you have never programmed before, you already know the basic syntax or if you want to know the advanced functions of Java.

3. Brief information about the department:

The department of computer science, I.T. & Animation under the guidance of the head of the department Dr. S.N. Helambe runs under graduate and post graduate courses in B.Sc. I.T., BCA(sci.), B.Sc.(Opt. Comp. Sci.), B.Sc.(Comp. Sci.), M.Sc. (C.S.), M.Sc. (I.T.) as well as B.Voc.(Multimedia & Animation). Department also runs Add-On courses for skill development for the students.

4. Objectives:

- To learn why Java is useful for the design of desktop and web applications.
- To learn how to implement object-oriented designs with Java.
- To identify Java language components and how they work together in applications.
- To design and program stand-alone Java applications.
- To learn how to design a graphical user interface (GUI) with Java Swing.
- To understand how to use Java APIs for program development.
- To learn how to extend Java classes with inheritance and dynamic binding.
- To learn how to use exception handling in Java applications.
- To understand how to design GUI components with the Java Swing API.
- To learn Java generics and how to use the Java Collections API.
- To understand how to design applications with threads in Java.

Principal
Deogiri College,
Aurangabad.

Head
Department of Computer Science
Deogiri College Aurangabad

DEOGIRI COLLEGE Seal AURANGABAD

5. Expected Outcomes:

- Learning Java Programming through simplistic steps from a professional trainer
- Understanding java class structure and method
- Learning the control flow statements to control the flow of execution of a program based on certain conditions
- Understanding of java operator working with binary, unary and assignment operator
- Understanding Java Arrays, Multidimensional Arrays
- Basic understanding of Strings
- Understanding object-oriented programming and classes
- Writing professional Java code

At the end of this course the students will be able to:

- Develop. Java Application which runs on every platform.
- Get job opportunity in IT industry
- Create Base for Adv. Java course

6. Name of the course coordinator: 1) Mr.S. P. Kathar

Head
Department of Computer Science
Deogiri College Aurangabad.

Java Certificate course Syllabus

Introduction

Programming language Types and Paradigms ,Computer Programming Hierarchy,Why Java ? ,Flavors of Java, Java Designing Goal, Role of Java Programmer in Industry, Features of Java Language, JVM –The heart of Java , Java's Magic Bytecode.

The Java Environment:

Installing Java, Java Program Development ,Java Source File Structure ,Compilation, Executins.

Java Basics

- Define the scope of variables
- Define the structure of a Java class
- Create executable Java applications with a main method; run a Java program from the command line; including console output.
- Import other Java packages to make them accessible in your code
- Compare and contrast the features and components of Java such as: platform independence, object orientation, encapsulation, etc.

Working With Java Data Types

- Declare and initialize variables (including casting of primitive data types)
- Differentiate between object reference variables and primitive variables
- Know how to read or write to object fields
- Explain an Object's Lifecycle (creation, "dereference by reassignment" and garbage collection)
- Develop code that uses wrapper classes such as Boolean, Double, and Integer.

Using Operators and Decision Constructs

- Use Java operators; including parentheses to override operator precedence
- Test equality between Strings and other objects using == and equals ()
- Create if and if/else and ternary constructs
- Use a switch statement

Creating and Using Arrays

- Declare, instantiate, initialize and use a one-dimensional array
- Declare, instantiate, initialize and use multi-dimensional array

Using Loop Constructs

- Create and use while loops
- Create and use for loops including the enhanced for loop
- Create and use do/while loops
- Compare loop constructs

DEOGIRI COLLEGE Seal AURANGABAD

Head
Department of Computer Science
Deogiri College Aurangabad.

Principal
Deogiri College,
Aurangabad.

- Use break and continue

Working with Methods and Encapsulation

- Create methods with arguments and return values; including overloaded methods
- Apply the static keyword to methods and fields
- Create and overload constructors; including impact on default constructors
- Apply access modifiers
- Apply encapsulation principles to a class
- Determine the effect upon object references and primitive values when they are passed into methods that change the values

Working with Inheritance

- Describe inheritance and its benefits
- Develop code that demonstrates the use of polymorphism; including overriding and object type versus reference type
- Determine when casting is necessary
- Use super and this to access objects and constructors
- Use abstract classes and interfaces

Handling Exceptions

- Differentiate among checked exceptions, unchecked exceptions, and Errors
- Create a try-catch block and determine how exceptions alter normal program flow
- Describe the advantages of Exception handling
- Create and invoke a method that throws an exception
- "Recognize common exception classes (such as NullPointerException, ArithmeticExcpetion, ArrayIndexOutOfBoundsException, ClassCastException)"

Working with Selected classes from the Java API

- Manipulate data using the StringBuilder class and its methods
- Creating and manipulating Strings

Thread :

- Understanding Threads
- Need of Multi Threaded Programing
- Thread Life Cycle
- Thread Priorities
- Synchronizing Thread

Head
Department of Computer Science

Principal
Deogiri College,
Aurangabad.

File I/O Basics,

- Reading and Writing to
- Files,
- Buffer and Buffer Management,
- Read/Write Operations with File
- Channel,
- Serializing Objects

GUI Programming

- Designing Graphical User Interfaces in Java,
- Components and Containers,
- Basics of Components Using Containers
- Layout Managers
- AWT Components,
- Adding a Menu to Window
- Extending GUI Features Using Swing Components

Event Handling

- Event - Driven Programming in Java
- Event - Handling Process
- Event - Handling Mechanism
- The Delegation Model of Event Handling
- Event Classes
- Event Sources
- Event Listeners
- Adapter Classes as Helper
- Classes in Event Handling

Database Programming using JDBC

- Introduction to JDBC,
- JDBC Drivers & Architecture
- JDBC
- Connecting to non - conventional Databases

Helambe
13/6/2016
(Dr. S.N.Helambe)

Head
Department of Computer Science
Deogiri College Aurangabad.

1. Title of the Course: Certificate course in Corel Draw

2. Background of the course:

CorelDRAW is a vector graphics editor developed and marketed by Corel Corporation. It is also the name of the Corel graphics suite, which includes the bitmap-image editor Corel Photo-Paint as well as other graphics-related programs (see below). The latest version is marketed as CorelDraw Graphics Suite 2021 (equivalent to version 23), and was released in March, 2021. CorelDraw is designed to edit two-dimensional images such as logos and posters and it is available for Windows and macOS.

3. Brief information about the department:

The department of computer science, I.T. & Animation under the guidance of the head of the department Dr. S.N. Helambe runs under graduate and post graduate courses in B.Sc. I.T., BCA(sci.), B.Sc.(Opt. Comp. Sci.), B.Sc.(Comp. Sci.), M.Sc. (C.S.), M.Sc. (I.T.) as well as B.Voc.(Multimedia & Animation). Department also runs Add-On courses for skill development for the students.

4. Objectives:

The very purpose of learning CorelDraw is that of forming object-based logo's designs , company identities, brochures and catalos with fine skills and depth of creativity. Corel draw training might be either entry-level or advanced level.

5. Expected Outcomes:

On the completion of course, the student will have sufficed knowledge about the entire software. He will be well versed with drawing grids, segments, using rulers, coloring, manipulating effects, moderating shapes etc.

At the end of this course the students will be able to:

- Logo making
- Stationery artists.
- Layout artist.
- Illustrator.
- Packaging designing.
- Photo editing
- Texture artist and many more.

Academic Year 2016-2017

Syllabus ForHands on Corel Draw Certificate Course

1. CorelDRAW: The basics Overview04Hrs.

There are many computer applications that you can use to drive a laser cutter. CorelDRAW is the most versatile and mastery of it will allow you to achieve the outstanding results from your laser system. CorelDRAW is a very powerful professional vector graphics package

2. Configuring the Workspace 04 Hrs.

If you are entirely new to CorelDRAW or maybe you haven't had much opportunity to use it in the past he first thing to do is to familiarize yourself with the workspace. At the top of the screen, you will find the Menu Bar. The Menus contain a wide variety of commands to modify the characteristics of your workspace and the entities within it.

3. CorelDRAW: The Toolbox 07 Hrs.

Take a tour of the Toolbox. By default, this resides on the left-hand side of the screen but it can be moved anywhere else, sometimes inadvertently, particularly if you use a laptop computer with a touch mousepad.

4. Drawing Basics06Hrs.

Drawing with CorelDRAW is best achieved by breaking the items you are creating down into a series of discrete components that are then sized using the Transformation Docker and shaped with the shape tool and the Weld and Trim tools in the Shaping Docker.

5. The Transformation Docker 06Hrs.

The Transformation Docker enables us to modify the objects we create or import in a precision way. We can move objects to a precise location, rotate, mirror, size and skew accurately

6. The Weld Command 03Hrs.

Try this again, this time selecting the first object and welding this to the second. You will achieve the same shape but this time the new object has a fill. The Weld command creates a single curve from 2 or more components. The components may overlap, sit next to each other or be some distance apart.

7. The Object Manager 06Hrs.

The Object Manager Docker Advanced CorelDRAW users make much use of the Object Manager Docker. Each item you have created can be identified, accessed and modified in the Object Manager.

8. Outlines and Fills 06Hrs.

Outlines and Fills When you create drawings to be cut or engraved on the laser you have to ensure the following criteria are applied: Outlines need to have a line weight of hairline. They need to have a Colour that the laser driver recognizes as a command, I.e., the precise Colour as defined in your laser manual.

9. About Curves04 Hrs.

About Curves A curve is a series of line segments, each line segment has a node at each end. Line segments can be straight or curved and they need not be connected to each other within a single curve.

1. Title of the Course: Dot Net Programming

2. Background of the course:

The .Net framework is a software development platform developed by Microsoft for the first time in 2002. The framework was meant to create applications, which would run on the Windows Platform. The first version of the .Net framework was called 1.0. Since then, the .Net framework has come a long way and its current version is 4.7.1. The below write-up describes the .Net Framework and its scope in detail.

The .Net framework can be used to develop both - form-based and web-based applications. The framework also supports various programming languages such as Visual Basic and C#. In this chapter, you will learn some basics of the .Net framework.

Nowadays, the IT sector is a highly promising industry with diverse employment opportunities. DOT Net is among the core programming languages that drove the growth of the IT industry globally. DOT Net is a versatile programming tool used to develop software tools and products adaptable to various complicated and distinct system environments. The framework is the most suitable tool to develop software tools for Windows-based web and server applications.

3. Brief information about the department:

The department of computer science, I.T. & Animation under the guidance of the head of the department Dr. S.N. Helambe runs under graduate and post graduate courses in B.Sc. I.T., BCA(sci.), B.Sc.(Opt. Comp. Sci.), B.Sc.(Comp. Sci.), M.Sc. (C.S.), M.Sc. (I.T.) as well as B.Voc.(Multimedia & Animation). Department also runs Add-On courses for skill development for the students.

4. Objectives:

- Demonstrate the fundamental aspects of modern computer programming
- Design and implement .NET web application
- Write object-oriented logic using C# and Visual Basic (classes and libraries)
- Leverage Visual Studio for code generation, user interface design, testing, and debugging
- Build SQL Server databases and access them using the Entity Framework (EF)

5. Expected Outcomes:

Principal
Deogiri College,
Aurangabad.

DEOGIRI COLLEGE Seal AURANGABAD

Head
Department of Computer Science
Deogiri College Aurangabad.

- Understand code solutions and compile ASP. NET projects within the .NET framework.
- Demonstrate knowledge of object-oriented concepts Design user experience and functional requirements ASP.NET application.
- Construct classes, methods, and assessors, and instantiate objects.
- Understand and implement string manipulation, events and exception handling within .NET application environment.
- Create and manipulate GUI components in ASP.NET
- Design and Implement Windows Applications using Windows Forms, Control Library, Advanced UI Programming & Data Binding concepts
- Identify and resolve problems (debug /trouble shoot) in ASP.NET window based application
- Identify Industry defined problem and suggesting solution(s) using .NET application.

At the end of this course the students will be able to:

- Develop . NET Web Application
- Develop Back-end

6. **Name of the course coordinator**: 1) Mr. R. A. Magre

A Report of

One Day Regional Workshop on Printed Circuit Board (PCB-2017)

The workshop took place on 22 August, 2017 in the Department of Electronics, Deogiri College, Aurangabad.

Recently, the syllabus of B. Sc. and M. Sc. Electronics has included the project activity for each academic year and Electronic Product Development (EPD) for each semester respectively. It plays a significant role for an entry in the industry after graduation as well as post graduation. Thus, a large number of students of the subject Electronics are working for their projects/EPDs as an academic activity. The PCB designing, drawing and etching are important steps apart from testing and packing/finishing of the project.

The aim of the organized workshop was to train the students in the complete processing of PCB designing, such as layout designing, printing and etching. This would help them to accomplish their project/EPD work at their own. The workshop was jointly arranged by *Department of Electronics, Deogiri College, Aurangabad, Department of Electronics, Shivchhatrapati Mahavidyalay, Cidco, Aurangabad* and *Institution of Electronics and Telecommunication Engineers (IETE) Aurangabad chapter* on *Tuesday 22 August, 2017*.

The workshop was attended by eighty eight (88) students of B. Sc. and M. Sc. Electronics of Aurangabad region. The list of participants is attached as Annexure I.

The workshop was inaugurated by the Head, Department of Electronics, Dr. S. N. Helambe in the presence of other faculty members of both, Department of Electronics, Deogiri College and Shivchhatrapati College, Aurangabad.

In the first session Mr. T. A. Prajapati delivered a theory lecture about the introduction of the software DIPTRACE used for PCB drawing. It contained the identification and location of the various components, connecting lines, labeling of the components, placing of components, adjustment of track and pad properties. It was followed by the laboratory sessions, where

Principal
Deogiri College,
Aurangabad.

students designed their own layout of the given circuit using DIPTRACE. The circuit of microcontroller development board was considered for design. Each student was allotted a separate computer system for the hands on layout designing. During the session, the tutoring was carried out by the faculty members and six senior student volunteers. All staff involved in tutoring as well as planning and co-ordinating the training workshop are listed in *Annexure II.* In the afternoon, participants in a group of ten were allowed to print, etch and drill the PCB. The photographs of inauguration, lecture and laboratory sessions are provided in *Annexure III.*

The participants, in the first session got familiar with the software DIPTRACE and strived for designing in the next session. A large number of participants successfully completed the designing of development board. The designed layout of development board was printed on photo paper and transferred on copper clad which was followed by etching. Lastly, the drilling for component mounting, lead to the completion of PCB. The satisfaction of learning a complete designing of PCB was reflected on the faces of the participants.

We acknowledge the Institution of Electronics and Telecommunication Engineers (IETE), Aurangabad chapter for their technical sponsorship to arrange this regional workshop on PCB designing.

To,

The Principal,

Deogiri College,

Aurangabad

Subject: Permission to conduct one day regional level workshop

Dear Sir,

Recently, syllabus of B. Sc. and M. Sc. Electronics has included the project activity in each year and electronic product development (EPD) in each semester respectively. It plays significant role in entering the industry after graduation as well as post graduation. Thus, large number of students of the subject Electronics is working for their projects/EPDs as an academic activity. The PCB designing, drawing and etching are important steps apart from the testing and packing/finishing of the project.

The aim of the proposed workshop is to train the students in the whole processing of PCB such as designing, drawing and etching. This will help them to accomplish their project/EPD work at their own. The workshop will be jointly arranged by *Department of Electronics, Deogiri College* and *Department of Electronics, Shivchhatrapati Mahavidyalay, Cidco, Aurangabad* in the *Fourth week of August*, 2017.

The fees will be Rs 100/- to maintain the recurring expenses.

Yours faithfully,

Principal
Deogiri College,
Aurangabad.

Deogiri College, Aurangabad

Department of Computer Science, I.T. & Animation

1. Title of the Course: Java Programming

2. Background of the course:

This course is designed for a beginner, who plans to become a Java developer and aims to get a first Java programming job, but strives to discover what skills employers want. This course is for them. This course will provide those skills. This course covers all the basic concepts, tools, functions and required topics that a Java developer usually requires during the development process of the application.

In this course, we will start with the installation and configuration of Java and Eclipse on various operating systems along with the following topics. If you have never programmed before, you already know the basic syntax or if you want to know the advanced functions of Java.

3. Brief information about the department:

The department of computer science, I.T. & Animation under the guidance of the head of the department Dr. S.N. Helambe runs under graduate and post graduate courses in B.Sc. I.T., BCA(sci.), B.Sc.(Opt. Comp. Sci.), B.Sc.(Comp. Sci.), M.Sc. (C.S.), M.Sc. (I.T.) as well as B.Voc.(Multimedia & Animation). Department also runs Add-On courses for skill development for the students.

4. Objectives:

- To learn why Java is useful for the design of desktop and web applications.
- To learn how to implement object-oriented designs with Java.
- To identify Java language components and how they work together in applications.
- To design and program stand-alone Java applications.
- To learn how to design a graphical user interface (GUI) with Java Swing.
- To understand how to use Java APIs for program development.
- To learn how to extend Java classes with inheritance and dynamic binding.
- To learn how to use exception handling in Java applications.
- To understand how to design GUI components with the Java Swing API.
- To learn Java generics and how to use the Java Collections API.
- To understand how to design applications with threads in Java.

Principal
Deogiri College,
Aurangabad.

Head
Department of Computer Science
Deogiri College Aurangabad.

DEOGIRI COLLEGE AURANGABAD

5. Expected Outcomes:

- Learning Java Programming through simplistic steps from a professional trainer
- Understanding java class structure and method
- Learning the control flow statements to control the flow of execution of a program based on certain conditions
- Understanding of java operator working with binary, unary and assignment operator
- Understanding Java Arrays, Multidimensional Arrays
- Basic understanding of Strings
- Understanding object-oriented programming and classes
- Writing professional Java code

At the end of this course the students will be able to:

- Develop. Java Application which runs on every platform.
- Get job opportunity in IT industry
- Create Base for Adv. Java course

6. Name of the course coordinator: 1) Mr.S. P. Kathar

Head
Department of Computer Science
Deogiri College Aurangabad.

Java Certificate course Syllabus

Introduction
Programming language Types and Paradigms ,Computer Programming Hierarchy,Why Java ? ,Flavors of Java, Java Designing Goal, Role of Java Programmer in Industry, Features of Java Language, JVM –The heart of Java , Java's Magic Bytecode.

The Java Environment:
Installing Java, Java Program Development ,Java Source File Structure ,Compilation, Executins.

Java Basics

- Define the scope of variables
- Define the structure of a Java class
- Create executable Java applications with a main method; run a Java program from the command line; including console output.
- Import other Java packages to make them accessible in your code
- Compare and contrast the features and components of Java such as: platform independence, object orientation, encapsulation, etc.

Working With Java Data Types

- Declare and initialize variables (including casting of primitive data types)
- Differentiate between object reference variables and primitive variables
- Know how to read or write to object fields
- Explain an Object's Lifecycle (creation, "dereference by reassignment" and garbage collection)
- Develop code that uses wrapper classes such as Boolean, Double, and Integer.

Using Operators and Decision Constructs

- Use Java operators; including parentheses to override operator precedence
- Test equality between Strings and other objects using == and equals ()
- Create if and if/else and ternary constructs
- Use a switch statement

Creating and Using Arrays

- Declare, instantiate, initialize and use a one-dimensional array
- Declare, instantiate, initialize and use multi-dimensional array

Using Loop Constructs

- Create and use while loops
- Create and use for loops including the enhanced for loop
- Create and use do/while loops
- Compare loop constructs

DEOGIRI COLLEGE Seal AURANGABAD

Principal
Deogiri College,
Aurangabad.

Head
Department of Computer Science
Deogiri College Aurangabad.

- Use break and continue

Working with Methods and Encapsulation

- Create methods with arguments and return values; including overloaded methods
- Apply the static keyword to methods and fields
- Create and overload constructors; including impact on default constructors
- Apply access modifiers
- Apply encapsulation principles to a class
- Determine the effect upon object references and primitive values when they are passed into methods that change the values

Working with Inheritance

- Describe inheritance and its benefits
- Develop code that demonstrates the use of polymorphism; including overriding and object type versus reference type
- Determine when casting is necessary
- Use super and this to access objects and constructors
- Use abstract classes and interfaces

Handling Exceptions

- Differentiate among checked exceptions, unchecked exceptions, and Errors
- Create a try-catch block and determine how exceptions alter normal program flow
- Describe the advantages of Exception handling
- Create and invoke a method that throws an exception
- "Recognize common exception classes (such as NullPointerException, ArithmeticExcpetion, ArrayIndexOutOfBoundsException, ClassCastException)"

Working with Selected classes from the Java API

- Manipulate data using the StringBuilder class and its methods
- Creating and manipulating Strings

Thread :

- Understanding Threads
- Need of Multi Threaded Programing
- Thread Life Cycle
- Thread Priorities
- Synchronizing Thread

DEOGIRI COLLEGE Seal AURANGABAD

Principal
Deogiri College,
Aurangabad.

Head
Department of Computer Science
Deogiri College Aurangabad.

File I/O Basics,

- Reading and Writing to
- Files,
- Buffer and Buffer Management,
- Read/Write Operations with File
- Channel,
- Serializing Objects

GUI Programming

- Designing Graphical User Interfaces in Java,
- Components and Containers,
- Basics of Components Using Containers
- Layout Managers
- AWT Components,
- Adding a Menu to Window
- Extending GUI Features Using Swing Components

Event Handling

- Event - Driven Programming in Java
- Event - Handling Process
- Event - Handling Mechanism
- The Delegation Model of Event Handling
- Event Classes
- Event Sources
- Event Listeners
- Adapter Classes as Helper
- Classes in Event Handling

Database Programming using JDBC

- Introduction to JDBC,
- JDBC Drivers & Architecture
- JDBC
- Connecting to non - conventional Databases

Department of Botany
Report Soil Testing Year 2016-17

Department of Botany has 80% students from rural area and 45% students are from farmer's family. To increase the awareness about soil health we started the soil analysis facility in the department. This activity runs with the collaboration of Government Agriculture soil testing institute. Samples were collected from student's native place and analysis were done free of cost. Farmers of Marathwada region facing drought or insufficient irregular rain fall from last few years. Because of this we all facing economic crisis. To minimize effect of drought on the crops one can concentrate on soil fertility.

Soil analysis is a valuable tool for farm as it determines the inputs required for efficient and economic production. A proper soil test will help ensure the application of enough fertilizer to meet the requirements of the crop while taking advantage of the nutrients already present in the soil. It will also allow determining lime requirements and can be used to diagnose problem areas. Soil testing is also a requirement for farms that must complete a nutrient management plan. Total 67 students from UG and PG was benefited.

Following students completed their soil testing training during academic year 2016-17.

Sub: Permission for training programme of students in Soil testing Department, Aurangabad

Respected Sir,

With reference to above mentioned subject kindly grant the permission for training programme of B.Sc. II yr. Botany students in the Government Soil Testing Department, Shahanoormiya Dargha Road, Aurangabad. The training is scheduled from 13th July 2016, daily two hrs. for 15 days in their free time. That will be fruitful for their career development of students and also beneficial for Department of Botany.

It is further requested to issue the covering letter of Principal Deogiri College to the Director of Agriculture institute, Aurangabad in regard with training programme of the students.

Thanking You,
