**Girl's Hostel Annual Programme Report**

**Event Name: International Yoga Day**

**21/06/2021**

Celebration of International Yoga Day in the girl's hostel

**Introduction:**

Prime Minister Narendra Modi and the United Nations can be heartily credited for bringing International Yoga Day into existence. On September 27, 2014, during his speech at the UN General Assembly, Narendra Modi put forth his suggestion for the occasion of a 'Yoga Day'. Practiced in India since the 5<sup>th</sup> century, Yoga has been beneficial in keeping the body and mind in sound health. A holistic approach, Yoga targets all the different systems of the body and mind. The Asanas make the body strong and flexible, as health improves; the mind too is renewed with confidence. The practice of Pranayama regulates the purification of the internal system and the organs, acting as a superior and able supplement to Asanas. The energy that is generated in the body through these physical practices is then channelled into meditation or *Dhyan* for stability, peace and calm.

**Objectives:**

1. Yoga plays a significant role during the world crisis of Covid-19 as yoga boosts our immunity and it is known for curing respiratory disorders.
2. Pranayama or breathing exercises increase our oxygen intake by up to five times.
3. Through this rich oxygenation of blood to the brain, heart, lungs, and digestive systems; our organs functioning is vastly improved thus also improving our overall health.
4. As a healing and other alternative form of therapy, yoga helps to relieve stress and keeps the mind calm.

**The Context:**

International Yoga Day 2021: On the occasion of the seventh International Day of Yoga (IDY 2021) today, Prime Minister Narendra Modi addressed the nation today. The theme of the International Yoga Day event this year is '**Yoga for wellness**', a motto aligned to the current pre-occupations. We are celebrating the yoga day in every year. This is very energetic activity for the student. In pandemic situation yoga is most important. 15 student were presented for the yoga. Due to pandemic situation that's why no more student for the programme. Ku. Madhuri Lahase taught the students.

#### 1. Title of the Activity/Event/Practice

Self Defense Karate Camp was jointly organized by M. S. P. Mandal's Deogiri College, Aurangabad and Wing Chun Association India for the girls in the Deogiri College girls' hostel on August 11, 2021.

#### 2. Objectives of the Practice

1. The main objective of self-defense training is to empower you with techniques to handle an attack independently.
2. Increasing confidence in college girls and women.
3. Creating awareness about self-defense among college girls and women's.
4. To guide girls to form a capable, self-reliant and healthy generation.
5. Enhancing the physical capacity of girls.

#### 3. The Context

Physical self-defense is the use of physical force to counter an immediate threat of violence. Such force can be either armed or unarmed. In either case, the chances of success depend on various parameters, related to the severity of the threat on one hand, but also on the mental and physical preparedness of the defender.

According to Victims of Sexual Violence: Statistics on Rainn, about "80 percent of juvenile victims were female and 90 percent of rape victims were adult women". In addition, women from ages 18 to 34 are highly at risk to experience sexual assault. Empowerment Self-Defense instructors focus on holding perpetrators responsible while empowering women with the idea that they have both the right and ability to protect themselves.

### **Details of the Activity:**

The psychological testing and counselling cover the following issues:

**Study Habits:** The study Habit test helps to students how to improve their academic performance. There are 8 fields on which the students get feedback and they are as follow

- a) Budgeting Time
- b) Physical condition
- c) Reading Ability
- d) Note taking
- e) Learning Motivation
- f) Memory
- g) Taking Examination
- h) Health

**Budgeting Time:** Time management is very important aspect of study. Sometimes the students have other responsibility rather than study so they have to schedule their timing properly so that they can give sufficient time for study.

**Physical Condition:** Physical setting is also an important factor affecting on study. Selective attention is needed when the students live in noisy setting. Concentrating on specific stimulus and neglecting unwanted stimulus can be possible in emotional stable students. If the student is anxious then he cannot concentrate on study. So physical setting is very important.

**Reading Ability:** Reading ability of the students depends on many factors, the medium of the reading materials, if the reading material in student's mother tongue then the speed of the reading is more than the other language. The practice of reading is another important aspect of variable which affect the speed of reading. When the student get feedback about his current position on reading speed s/he can improve if needed.

**Note taking:** Taking note in the lecture is a skill and students have to learn it by practice. The organization of learning material is done properly, it help to remembering. So note taking is very much important for recall. Students can improve the skill when they get the feedback on the test.

**Learning Motivation:** Apart from ability to ability to learn, desire to learn is an important consideration. If one is genuinely interested in learning he may learn quickly and retain it for long time. There are individual differences in capacity to learn. Everybody can improve with extra efforts, spirits of competition and co-operation helps in learning.

**Memory:** Improving memory means learning better. Distributing learning period is preferable to continuous or massed learning. The better we learn the longer we retain. Over learning helps in remembering for a longer period.

**Taking examinations:** Most of our examinations are easy type where a few questions are given and students are required to write long answers. It is good to prepare an outline and arrange the idea properly, following a logical pattern of presentation. Use of simple language is advisable.

**Health:** Regular and healthy habits of eating, exercise, recreation and sleep help in maintaining good health and sound mental state which is necessary to achieve success in the examination. In the study habit test the student is given feedback on the scale.

### **Details of the Activity:**

1. Stress and coping:
2. Communication skills
3. Mental Health and Preventive measures.

**Stress and coping:** Stress is one of the most frequently occurring variables in our life. The effects of stress depend on the severity, frequency and duration of the stress. If the stress remains long it affect our health and daily performance. The most prevalent stress related problems are hipper tension, bronchial asthma, arthritis and aches and pains. But in younger population we observe alcohol and drug dependence. They choose these ways to cope with stress. If the person tried these ways of coping it is very dangerous to him. When a person takes the shelter of alcohol or drug as a mean to cope to stress, then chances of becoming alcohol or drug dependent are high. According to reinforcement principle of behaviour modification, the drug works as reinforce and hence the risk increases. So the department of psychology had tried to create awareness about the risk alcohol and drug in students.

The students are not an exception to such risk. The persons working in IT field have high risk of stress in general, and so as a preventive measure the department selected Computer science students for this topic for sensitization.

**Communication skills:** Communication is the most important process in every field. There are many aeronautic accidents due to communication problems. In 1990 the world observed 73 people lost their lives in flight 52 crashed on Kennedy air port due to communication problems. In our daily life we are also facing severe problems due to miscommunication. So it is important to learn communication skills for effective and proper communication. The students from commerce choose business as career so they have to learn proper communication skill for their advancement. So the department of psychology took communication skills development sessions.

**Mental Health and Preventive measures:** Mental health is the most important issue in 21<sup>st</sup> century. According to World Health Organization's report the prevalence of mental disorders is increasing day by day. There 1 in 4 people has mental health problems. So it is one of the most prevalent disorders in the world. We should be aware of it and take preventive measure to avoid them in our life. So for creating awareness the department of psychology took sessions on mental health and its preventive measure.

**Event Name: Self Defence Girls Programme. 4<sup>th</sup> Dec 2019**

---

**Introduction:**

**"I don't even call it violence when it's self-defence; I call it intelligence"**

**Safety:** The primary importance of self-defence is for women to be able to protect themselves against anything that's unacceptable in terms of social conduct. **2. Confidence:** There is nothing more empowering than having the confidence to analyse a dangerous situation and take actions to overcome them effectively.

**Objective:**

1. **Safety:** The primary importance of self-defence is for women to be able to protect themselves against anything that's unacceptable in terms of social conduct.
2. **Confidence:** There is nothing more empowering than having the confidence to analyse a dangerous situation and take actions to overcome them effectively.
3. **Empowerment:** It empowers women to lead a healthy and fulfilling life by encouraging them to deal with stressful and dangerous situations independently.
4. **Discipline:** It teaches discipline which transfers over to all other areas of life. It helps women be calmer, understanding and flexible, gain body and mind control, be more responsive than reactive, more observant, and achieve cognitive awareness.
5. **Reduces Dependency:** Just because you're a woman, you shouldn't be asked to travel with a companion! That's what learning self-defence does – it makes you independent, helping you protect yourself in every situation.
6. **Health and Fitness:** Self-Defence programs are also a fun way of exercising and building a healthy body, thereby improving physical and mental health.
7. **Reduces Discrimination/Sexism:** Crimes against women can be curbed in a significant way when women are empowered to fight back against any discrimination and sexism.

**Context:**

Above objective is most important and that's why we conducted this programme because by day today different types of situation handle the women so we are conduct the programme collaboration with Commissioner office and Vedant Nagar Police station. They organized the different types of self protection demo like Karate. Their Karate team show the some important self defence techniques. Mr.Chovel was Team leader and his group practically demonstrated the incidence Honourable Deepli Ghadge (DCP) guided the girls and she share the some of her experiences with girl.

**SPECIAL PROGRAMME FOR CREATING AWARENESS ABOUT MENTAL  
ILLNESS COLLEGE STUDENTS -13-02-2018**

Mental health is equally important as physical Health. There is high prevalence rate of mental health problems (WHO's report 2018) but people neglecting it. They are not aware of it. So they avoid to knowing about mental illness and therapies. There is another equally important issue of stigmatization. So people are living without Psychiatric care. Instead of proper treatment they are finding nonscientific ways. So we have decided to arrange special programme for creating mental health awareness. We invited Dr. Mohan Agashe who educates people through movies. Movies are a powerful and effective means of education. People learn unconsciously through movies. President's Prize winner movie Kasav had shown. The movie is about mental disorder and how to deal with it. The movie teaches how to cope with mental disorder like depression. 300 students had participated in the programme.

Dr. Mohan Agashe interacted to students at the end of the show. Dr. Agashe was eager to know whether his movie works according to its aim (to create awareness of Mental Health). After seeing the movie, *Kasav*, the student noted their responses which indicate that they had got some insights regarding mental illness and they had understood the need for knowing strategy to rectify.

**YOGA COMMITTEES REPORT 2016-17**

**IMPORTANCE OF YOGA**

Everyone is under stress. Health is very significant issue of every one's life. It is said that health is wealth. According to WHO health consists of four aspects, physical health, mental health, social health and spiritual health. Mental disorders are one of the burning problems today. There are increasing health problems day by day as we are living in age of stress. Modern medical science could not explain the true reason of diseases. And here starts the role of ancient Yoga. Yoga creates energy which increases the immunity of a person and works as preventive measure of diseases.

Yoga not only prevents the physical diseases but mental disorders like Stress related disorders and life style disorders and anxiety disorders (which includes hypertension-high blood pressure, heart problems, paralysis, spondylitis, acidity, ulcer, diabetes, asthma, arthritis, obesity) Yoga works on complete health. "Health is a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity. Mental Health is the balance between all aspects of life - social, physical, spiritual and emotional." (World Health Organization's definition of Health) are treated by yoga methods. JPMR is the nothing but yoga therapy. So we have followed yoga practices in our college as well. We have formed special yoga cell in our college which conduct various activities of yoga, i e lectures, training camps etc.

औरंगाबाद : मानवाच्या शरीरातील प्रतिकारक शक्ती आज तसे दिवस कमी होत चालली आहे. यामुळे शास्त्रोक्त आहार पद्धती जीवनात अनुसरून रोग प्रतिकार शक्ती वाढवायला हवी. आहारातील समतोल प्रमाणात सुवर्णमध्य साधला गेला तर शरीराला पोषक घटक मिळतात. शरीरचे तापमान वय, लिंग, श्वसनक्रिया, पचनशक्ती यावर ठरत असते म्हणून जीवनसत्वे, कर्बोदके, प्रथिने, पालेभाज्यांचा आहारात जास्तीत जास्त उपयोग करावा हवा, असे प्रतिपादन डॉ. मोहिनी सावंत

यांनी केले.

देवगिरी महाविद्यालयात आज दि. ७ रोजी गृहविज्ञान विभागातर्फे राष्ट्रीय पोषण सप्ताहांतर्गत आहारतज्ञ डॉ. मोहिनी जयरज सावंत यांचे बदलत्या जीवनशैलीतील अन्न सवयी या विषयावर व्याख्यानाचे आयोजन करण्यात आले होते. या कार्यक्रमाच्या अध्यक्षस्थानी स्था. नि. मंडळाचे सदस्य पंडितराव हर्षे हे होते तर प्राचार्य डॉ. शिवाजीराव थोरे हे प्रमुख पाहुणे म्हणून उपस्थित होते. व्यासपीठावर उपप्राचार्या श्रीमती डॉ. सी. एस. पाटील, गृहविज्ञान प्रमुख प्रा. उमा चौहान यांची उपस्थिती होती.
