REPORT ON FIRE SAFETY MEASURES

Deogiri College, Aurangabad ensures safety of all the stakeholders at the college. Fire safety is one of the measures ensured by the college.

The college made provisions of two levels of fire safety:

1. Fire safety cylinders with Gas and Powder
2. Fire safety set up with water pipes

The fire safety equipments are established in the following buildings:

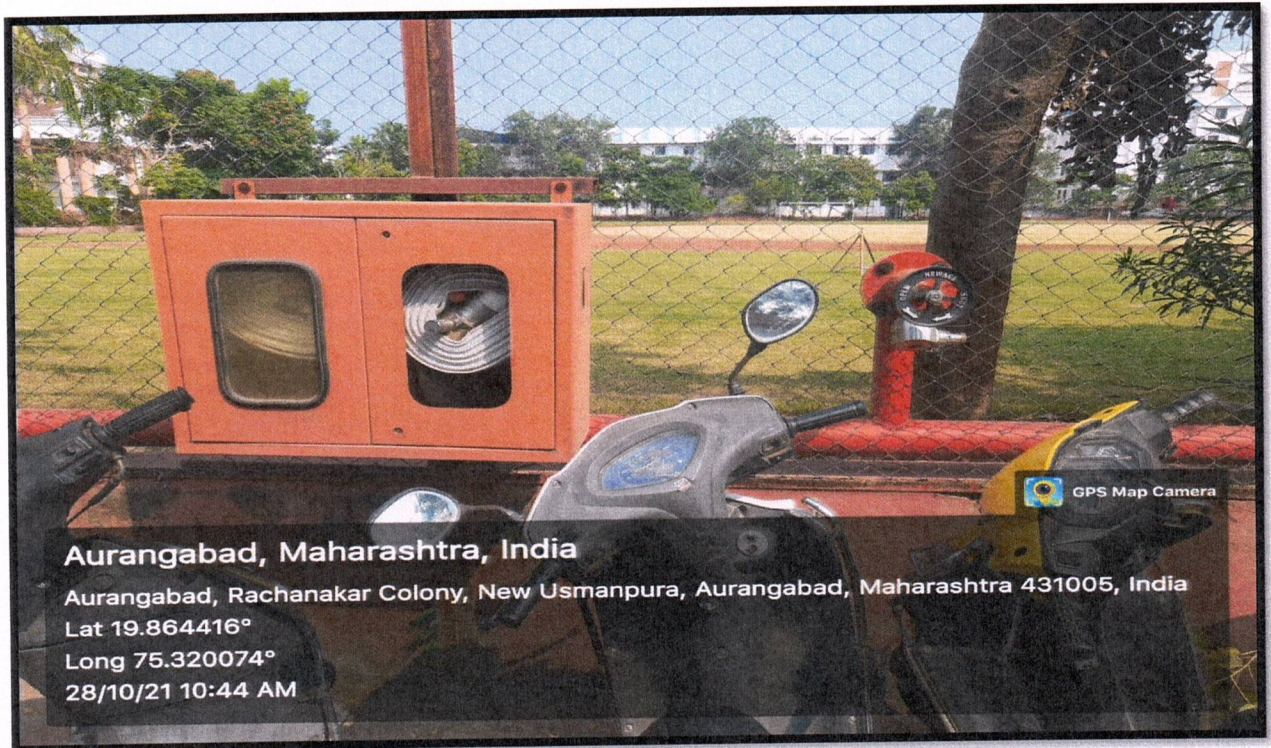

- a) Commerce Building
- b) Library Building – both wings
- c) Science Building
- d) Arts Building
- e) Science Laboratories
- f) Biotech Building
- g) History, Dramatics and Training and Placement Cell

The equipments are properly maintained and proper demonstration is given to staff and students regarding the proper operation of the equipment. The timely maintenance is also ensured of the equipment.

The presence and availability of the equipments ensures that the college is ready for any hazards arising from outbreak of fire at any time. Besides it, the students and faculty of the college are trained and informed for any possible fire outbreak and how to manage the situation under such conditions and use the fire safety equipment.
