Avishkar 2016

His Excellency, former Governor of Maharashtra, Shri. S.M. Krishna has initiated a novel research project competition named Avishkar in the year 2006. This activity, unique in its nature, is being implemented through Board of College and University Development. Dr. Babasaheb Ambedkar Marathwada University, Aurangabad has taken special efforts to increase the participation of the talented students from rural and urban areas. Special efforts have been taken to organize regional competitions, organize special training to these students and provide them necessary help and guidance to enhance their abilities to present their work in an effective manner. This activity has generated a lot of scientific temperament in research and innovation amongst students and the participation is ever increasing.

Aims and Objectives of AVISHKAR

- To inculcate research culture among students.
- To encourage original and novel thinking.
- To provide an opportunity for expression of academic talent.
- To promote interaction among academia, R & D Institutes and Industries.

District Level Avishkar- 2016 Objectives

Dr. Babasaheb Ambedkar Marathwada University, Aurangabad has established the Avishkar Cell to promote research and innovation amongst students and teachers, to reach up to the objectives set by AVISHKAR.

Disciplines for Avishkar

Research Projects can be in the form of live demonstrations / models / posters and should be based on innovative ideas, in given six categories.

- 1) Humanities, Languages, Fine Arts etc.
- 2) Commerce, Management, Law
- 3) Pure Sciences
- 4) Agriculture and Animal Husbandry
- 5) Engineering & Technology
- 6) Medicine and Pharmacy

Each college/ institution can send separate entries for four levels of

- UG Level
- PG level
- Post PG level (M. Phil / Ph.D.)
- Teacher level

Eligibility Rules

- 1) Only bonafide, full time student, who is enrolled for a degree or post graduate degree or diploma course of a minimum duration of one academic year and whose examination is conducted by the University subsequent to passing of the 12th class examination will be eligible for participation in this competition.
- 2) Students of open Universities shall be considered to be bona-fide students and shall be eligible to participate provided they fulfill other terms and conditions. However, students enrolled in correspondence courses in the institutions / Centers of Universities, Casual students, external students and students pursuing bridge courses shall not be eligible.
- 3) However the eligibility rules considered in University Level Avishkar 2016 will be based on Eligibility rule 1.

All the participants in Avishkar shall fulfill one of the following conditions as per the category of participation.

Undergraduate

Students pursuing bachelors degree programme in the participating university or its conducted / affiliated colleges or recognized institutes who are below the age of 25 are eligible to participate in any of the six disciplines under this category depending upon the area of his/her research work irrespective of the faculty/stream/subject in which he/she has enrolled for the degree or diploma in the participating university.

Post-Graduate

Any students who has completed his/her bachelors degree and pursuing post graduate studies in the participating university or its constituents / affiliated colleges or recognized institutes who is below the age of 30 is eligible to participate on any of the six disciplines under this category depending upon the area of his/her research work, irrespective work of the faculty/stream/subject in which he/she has enrolled for the post graduate degree/diploma in the participating university.

Post-PG

Any person having a post graduate degree/diploma and has registered for a diploma/degree such as M. Phil, Ph.D., D.Sc., D.Lit., etc or is pursuing Post Doctoral Research in the participating university or its constituents/affiliated colleges or recognized institutes is eligible to participate in any of the six disciplines under this category depending upon the area of his/her research work, irrespective of the faculty/stream/subject in which he/she has enrolled without any stipulated age limit.

Teacher

Only those teachers working in the University departments or affiliated colleges/ institutions of Dr. Babasaheb Ambedkar Marathwada University who are pursuing their M. Phil / Ph.D. will be allowed to participate in Avishkar in this category

General Instruction

- A Student shall not be allowed to represent more than one University during a single academic year.
- Provisional admission to a course in a participating University or college shall not make the student eligible to represent the university in Avishkar.
- In case of a student migrating from one University to another his/her migration case will be considered eligible only after his/ her admission in the new university is regularized and he/she is certified as a bona-fide student by the new university.

ACOUSTIC PORTRAIT MAKING SOFTWARE

Introduction
To generate images and portraits by using s/w. combination of different images related to the face. To generate a complete image of face

Objective
To develop a software which would be user friendly to create a facial image which will help in identification of a suspect in crime

Result

Example

Eyes: 

Nose: 

Lips: 

Ears: 

Hairstyle: 

Face-cut: 

Methodology:

Softwares:
1) corel-draw
2) Adobe photoshop cs3
3) image editor
4) paint.net

Conclusion
Crime is committed but it becomes difficult to identify the convict. Eyewitness may or may not be able to portray the right image. This model will decrease the time, efforts and there would be more precision & will also get 3D model.

AUTOMATION OF WATER DISTRIBUTION

INTRODUCTION :

- Current Water Distribution System Is Lengthy , Inaccurate And Improper For Current Needs.
- Proposing A Fully Automated Electro-Mechanical Water Distribution System.
- Which Saves Time, Money And The Most Important Water.

OBJECTIVES:

- A Complete Faultless Automatic Valve Based System For Cities, Villages.
- To Neutralize Water And Time Wastage.
- Precise Timing And Discipline For Regular Water Supply.

BENEFITS OF THIS SYSTEM :

- One Click Water Control.
- Area Wise Automated Water Management.
- Immediate Detection Of Water Theft And Wastage.
- Easy To Implement Right Now.

Number Of Valves Needed	Cost Of Valves	Cost Of Labour	Cost Of Cables	Main Server	Total Amount
12	60,000 Rs.	1,00,000 Rs.	1,00,000 Rs.	1,00,000 Rs.	3,60,000 Rs.

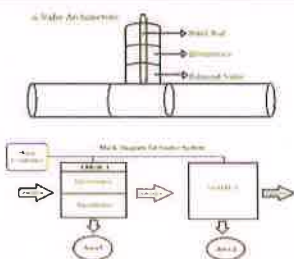

AVERAGE WATER CONSUMPTION TABLE

Area	Water For An Individual	Water Needed For Family Of 4 In 2 Days	Water Given Through Current System	Water Given Through Automated System	Water Saved Through Automated System	Water Saved For Population of 10,000
Village	137 Litres	1096 Litres	1700 Litres	1150 Litres	550 Litres	14,37,500 Litres
City	168 Litres	1344 Litres	2300 Litres	1400 Litres	900 Litres	17,50,000 Litres

FUNCTIONING OF AUTOMATIC SYSTEM :

- Valves Will be Connected To Each Other And Server.
- Server Will Decide Timing And Amount Of Water Distributed To The Area.
- Will Tell About Leakages In Pipeline To Server.

CONCLUSION:

Implementation Of This Automated Water Distribution System Will Save Huge Amount Of Water. It Is More Effective To Implement And Cheaper Comparing Other Options.

PAPER MONITORING SYSTEM FOR EXAMINATION DEPARTMENT

Introduction :-

Now a days the paper checking Monitoring Process is done manually which is time consuming and Expensive. So we are try to develop an application that will help handling this electronically. In this application the teacher who joins the DCAS system need to register themself through our application and then we able to count paper and salary easily through our click only.

Research Statement :-

Reduce the cost and human effort For Effectively and efficiently maintain The DCAS Center.

Methodology :-

Bundles of Papers Code wise

Received at DCAS Center

Registration of Teachers Through Application

Distribution of Papers To Related Teachers

Paper Checked

Resubmitted By Teachers

Papers Back To University for further process

Objectives

- 1) Computerization: Manual work can be done through computer.
- 2) To reduce human efforts and time required.
- 3) To Provide smart and easy way to maintain records.
- 4) To provide proper output with speed and accuracy.
- 5) To make environment ecofriendly.

Conclusion

- The Application we have decided to develop will provide us computerization of DCAS working this will cut down effort and man power required to maintain the DCAS center.
- DCAS system can work more efficiently through this Application.

The display board is divided into several sections:

- Introduction:** Discusses the patriarchal system and its impact on women.
- Family:** Explains how patriarchal norms affect women's roles and status within the family.
- Society:** Analyzes the societal expectations and discrimination against women.
- Workplace:** Examines the challenges women face in professional environments.
- Conclusion:** Summarizes the findings and suggests ways to improve women's status.
- References:** Lists sources used in the project.

The board also features a bar chart showing data related to the project's findings and several photographs illustrating the social context.

MEDIA AND PROMOTION OF ALCOHOL

DLA-2016-III-F-509

Introduction

- Media
- Alcohol Promotion in India
- Impact on teenagers

More than 150,000 college students develop an alcohol-related health problem each year.

Objective

- To show that exposure to alcohol advertising contributes to an increase in underage drinking.
- To understand the consequences on youth- social, political, economical and psychological life.

1,825

Research Vision

A safe, healthy, prosperous community.

Research Mission

To stop alcohol consumption by empowering youth and young adults to make safe, healthy, and legal choices through community education, collaboration and policy.

Recommendations

- The exposure of children and adolescents to alcohol advertising in India must be significantly reduced.
- Safety messages and/or health warnings should be part of alcohol advertisements!

Harmful Effects of Alcohol

Conclusions

Young adolescents appear to be susceptible to the persuasive strategies contained in alcohol advertisements. These findings are an important contribution to the understanding of the role of alcohol advertising in the promotion of alcohol consumption and the development of effective interventions to reduce alcohol consumption.

BETWEEN THEISM AND ATHEISM: A STUDY OF ADJUSTMENT.

Introduction

Study Of Theist And Atheist With The help Of Bell's Adjustment Inventory.

Significance

helpful in maintaining balance with personal and professional life.
helpful in maintaining equality between men and women

Hypothesis

Theist Are Better Adjusted than Atheist.
Women Are Better Than Men In Family And Emotions.

Suggestions

- There is a lot scope for this test.
- This is helpful in maintaining equality between men and women.

Objectives

- To Study Adjustment Between Theist And Atheist.
- To Study Adjustment Between Men And Women.

Methodology

- Tools- "Bell's Adjustment Inventory"
- 20 random samples for testing
- 2 Category of response 'yes' or 'no'
- Scores carried out with the help of calculator.

Conclusion

There is no significant difference between theist and atheist and Men and Women.

Clean gene technology

Introduction: Cre is a site-specific DNA recombinase that is useful for either targeted excision or activation of a desired gene in a temporally and spatially controlled manner. LoxP is a 34bp sequence recognized by Cre recombinase.

- used to carry out deletion, inversion, insertion & translocation.
- consists of a single enzyme, Cre recombinase, recombining a pair of short target sequences i.e. the Lox sequences.

Cre/lox system

- Derived from P1 bacteriophage.
- The recombinase catalyzed the recombination between two loxP sites for recombination sites.
- Consist of an 8 bp core sequence where recombination takes place, and two flanking 13 bp inverted repeats (in total 34 bp).

Objectives:

- (In plants)
 - For genetically modified crops.
 - Direct gene transfer and deletion or inversion of foreign gene.
- (In Humans)
 - The Cre-lox recombination system has been currently used by the world-wide neuroscience community.

Previous Research: In addition to traditional gene therapy, conditional gene silencing has potential in treating cancers and viral infections (Kappel et al., 2006; Leo and Kumar, 2009). Using SSR systems, we may introduce point mutations into genes or engineer chromosomes so that mouse models for most human genetic diseases can be generated. For example, researchers may conveniently analyze gene interactions using inducible systems.

Future perspective:

- to elucidate the function of each gene in a genome, and find new therapeutic interventions for human diseases.
- We may use these models to study the mechanisms of the diseases and screen drugs for treatment.
- Increase in crop yield.
- Reduce crop loss caused by abiotic stress.

Conclusion: Cre LoxP mediated gene replacement is simple and efficient of targeted mutagenesis in any organism.

Demonetisation Effects on various sectors of Indian Economy

RESEARCH STATEMENT

Demonetisation is new era of digitalising India

OBJECTIVES

To examine the effects on various sectors of Indian economy ;
To analyse the policy of government for blocking leakage of Black money.

NECESSITY

Eradication of black money and block fake currency transactions.
High circulation of currency in relation to economic growth.

PRIMARY SECTOR

During last few years, market was down due to drought conditions. Now the market is low caused by demonetization.
No firm & convincing decision on transactions of Jilha banks.

SECONDARY SECTOR

One of the major reasons of Black money generation.
Low influence on automobile industry
Sudden slow down in construction business since maximum transactions are done by means of cash.

TERTIARY SECTOR

Advantageous decision as all the services provided can be made available online.
Hurdle in the private educational institutions taking donations.
Presently only 14% of total payments is via Plastic money. Cashless will lead to transparency.
Challenges for development of new technologies for the IT sector

COMMON MAN

Most affected part in the course of this process
Rush at banks, shortage of currency notes, problems of housewives in emergency cases are some of them.
But stamping out black money will automatically benefit common man the most.

GOVERNMENT OF INDIA

Dreatic and high increase in tax collection.
Fall in fiscal deficit in the long run even though reduction in GDP rate
Transparency in system.
Blockage of Hawala transactions

FINDINGS:

Transformation from cash system to cashless system.
No substantial effect on existing money in foreign banks.
It is a temporary impact and not permanent solution

RECOMMENDATIONS:

Production of eco-friendly products out of old notes.
Need to develop security softwares.
