PREAMBLE

Massive Open Online Courses (MOOCs) have emerged as a transformative force in higher education, enabling learners to access high-quality learning resources anytime, anywhere. As institutions increasingly integrate digital learning into their academic ecosystem, the ability to effectively choose, engage with, and successfully complete MOOCs has become essential for both students and educators. This state-level workshop aims to equip participants with practical insights, strategies, and best practices for utilizing MOOCs as powerful tools for continuous learning, professional development, and academic enrichment. It also emphasizes the role of MOOCs in enhancing employability skills, promoting self-paced learning, and contributing to the vision of a digitally empowered society.

OBJECTIVES

- To introduce participants to the concept, structure, and significance of MOOCs in modern education.
- To familiarize learners with national and international MOOC platforms such as SWAYAM, NPTEL, Coursera, edX, and others.
- To guide participants on selecting appropriate MOOCs relevant to their academic or professional goals.
- To train participants in effective learning strategies for MOOC completion, time management, assignment submissions, and exam preparation.
- To improve research proposal and report writing abilities.
- To create awareness about certification benefits, credit transfer mechanisms, and integration of MOOCs in academic curricula.
- To promote digital literacy and foster a culture of lifelong learning among students and faculty.
